## Description

Dat ene leuke truitje dat je zo goed staat, die mooie tas die je toch eigenlijk hard nodig hebt, en die laarzen uit de uitverkoop waar je goed beschouwd een heleboel geld mee uitspaart... Smoezen die iedere ware shopaholic onmiddellijk herkent. Rebecca, een aantrekkelijke jonge journaliste bij het tijdschrift 'Succesvol sparen' (!), is zo'n winkelverslaafde. Haar onzekerheid over haar leven en werk werkt ze met winkelen weg, haar financiële situatie is een puinhoop en de schulden en dreigbrieven van de bank stapelen zich op. Consuminderen lukt niet, en Rebecca bedenkt steeds uitzinnigere manieren om haar schulden te negeren. Ook haar liefdesleven en carrière raken in 't slop, tot ze zich vastbijt in een financiële zaak en het aan de stok krijgt met de aantrekkelijke en succesvolle pr-adviseur Luke Brandon.

**Short Review:** I just love this series so much. For reals, I usually hate chick lit, but love this. It's such a fluffy read but at the same time, there is a sense of expense in there from her avoiding her bill collectors. I wish I could live her life, shopping every day :D I do hope her romance grows greatly and he doesn't find out about her debt, or if he does, he accepts and not get crazy mad. I look forward to reading the next book in the series.

### Review In GIF Form

Buggy: Opening line: *"Ok. Don't panic. It's only a Visa bill. It's a piece of paper, a few numbers. I mean, just how scary can a few numbers be?"*

It's been ages since I've read any chick-lit but when I found this book amidst a bunch of "free stuff" left at the mail boxes (ironic hey, it's about overspending and I find it for free) Anyways I grabbed it, along with some other useless crap and immediately started chuckling.

Reminding me very much of [Bridget Jones's Diary](#), this was an equally fun read, that had me LOL more than once at the antics, irrational decisions and downward spiral of a shopaholic who, oh yeah also just happens to be a financial journalist. Here Becky Bloomwood counts \$\$ like Bridget counts calories; binging with shopping sprees, going on cost cutting diets, avoiding the shops, scheming about how to make more money (because she can't possibly spend less and just HAS to have that new white coat)

Becky is an irresistible heroine but she generally makes a mess of things and it was super fun watching her make bad decisions as she fumbles through her job at Successful Savings, shopping away her lunch hours while trying to avoid her bank managers calls.

Speaking of which her over stimulated Visa card almost becomes a character of its own here, and her bank manager eventually does with the inclusion of hilarious letters from Endwich Bank

and the ever inventive ways Becky finds to not pay her Visa bill or in most cases ever even receive it.

Ah yes, there's also romance, intrigue, adventures in Indian cooking, unsuccessful part time jobs, a stalker(?) best friends, copious amounts of champagne drinking and a fantastic ending that will leave you smiling. This is an all around feel good book that reminded me why every once in a while some chick lit is a fabulous thing and best of all this was free...

And let's face it we've all been there with the credit card bills which we tend to ignore as soon as that excited feeling hits us upon first entering a store.

The Y.A. Bookworm Blogger: This book was super cute...Becky's "justifications" for all her purchases made me laugh! I also now feel a strangely intense desire to go shopping :P

Zia: i do not CARE WHAT OTHERS SAY it is a excellent four from me I enjoyed it, no doubt. Rebecca(Becky)was a essentially tough personality to appreciate and that is what I cherished such a lot approximately her. by no means underestimate the facility of a shopaholic. She was once super interesting and not did not humor me. Goodness knows. The letters to the financial institution have been the main hilarious. The absurd habit of Rebecca Bloomwood is any such hooker. i have to admit that i presumed it kinda silly to proceed the sequence reason it would've been an excellent end with one book. the opposite books have been a lot to envisioned and dragged on and that i chanced on myself tiring out although it was once really rather humorous. (view spoiler)[ Honestly, i really suggestion Luke used to be very complicated at issues and his personality simply made me are looking to jolt into this story. i would like to meet a Luke Brandon in genuine life, it would be a superb honor. i really said him as 'Mr Oblivious' whilst i used to be recommending this booklet to my friends. basically simply because he is so oblivious to everything, always. The Denny and George's scarf? Hmm. (hide spoiler)]Okay, possibly my advent lied. It wasn't perfect. i will be brutally sincere here. I purely rated it 4 stars was once simply because I enjoyed the movie. ----- YES!----- I enjoyed the motion picture greater than the publication and was once relatively outraged that the publication used to be so varied to the story. Well, purely simply because I watched the motion picture first. The relevancy in the direction of the publication is kind of silly as the motion picture is totally diverse FROM the tale type of.(view spoiler)[ For one, Rebecca does not paintings for Luke simply because within the tale Luke already has his personal company. Rebecca works for winning discounts from the beginning and Brandon owns Brandon communications from the start. Suze doesn't have a boyfriend whom she marries afterward and Rebecca doesn't are looking to paintings for that magazine. Luke's mum really lives in manhattan and has no connection in the direction of the movie. the lady within the eco-friendly SCARF? there's NONE. unbelievable, right? i couldn't think it myself. She finally ends up purchasing a blue shawl I think? That Luke does supply her cash for yet now not at a meals stand. She does lie and say it is for her Aunt Ermitrude. yet THEIRS NO the lady within the eco-friendly shawl ARTICLE AND NO SLAPPING THAT FINNISH GUY. Alicia-bitch-long-legs (I'm sorry, i really quite like that nickname for a few reason) works for Luke at Brandon Communications and seems to be a deceiving brat to the corporate within the moment book. She does fancy Luke, I think. yet she's no longer a few most sensible version thing. Rebecca truly does not visit a shopaholic workforce the place she learns
