Description

On a small Caribbean island a woman joins the newest reality TV show: 24/7. For Dana Kirsten, winning the \$2 million prize could mean saving her child's life. But while the country is watching her every move, Dana is entering a fight for her own life - and a conflict that will shake the world...

Vassa Island has been rigged with remote control cameras, a surveillance satellite system, and the most powerful television transmitter ever created. And that's not all. For a small fee, anyone with a computer can access any of the 638 cameras live, twenty-four hours a day, seven days a week - and vote as twelve carefully chosen contestants struggle with each other and the island. But only fifteen minutes into the first live broadcast, the show's host and crew die a ghastly death. The shell-shocked contestants hear a voice echoing from hidden speakers: "I am Control, and this has just become the ultimate reality show."

Suddenly the voice is hurtling contestants through a maze of traps and macabre, individually designed puzzles. And when the worldwide audience votes one person off the island, it isn't just a loss... it's death.

With every day unveiling a new terror, and as one man from the outside races to crack the Vassa mystery, the only real way to win 24/7 is to find Control. And stop him. But Control has plans beyond the desert island, spinning a dark plot that could hold the entire world hostage in a grip of death.

Insightful reviews

David Leemon: A well-written book with a good cast of characters and an interesting situation.

LINCCReviews: I can't recommend this book highly enough! It adds quite a different spin on Reality TV. Also check out his website and get a chance to read his free online book BOOM. Another excellent book. (csmagura)

Brittiany: 24/7 is a new reality show, much like the current 'Survivor', but on a much grander scale. The contestants are to be on the deserted, some think cursed, Vassa Island, which happens to have the single most powerful communications tower in the world. The show will broadcast their every move. Not only are they over 600 cameras on the island, but each contestant is fitted with a collar cam. The prize for enduring the public eye as they compete in challenges to face their biggest fears? Two million dollars and your heart's desire.

For single mom Dana Kirsten that means her daughter Jenna can join the hopefully life-saving trial in Switzerland to treat her muscular dystrophy.

Things go terribly wrong the moment the show begins. The stakes have jumped considerably. The contestants are now fighting for their lives.

When I read my Goodreads friend Justin's review of this book, I immediately went in search of it. His review made me think 'Hunger Games' with adults. FYI, there is no Kindle or e-reader version of the book, so I hit up my local library.

The story starts off with a bang and builds momentum from there. Its fast pace kept me turning the pages. Like Justin, I never could find a good place to stop. The twists and turns kept me guessing til the end.

While it wasn't as much like 'The Hunger Games' as I'd been expecting, it was still definitely worth the read. Thanks for recommending, Justin!

Dee Dodgson: Jim Brown has the facility to maintain you at the fringe of your seat and not supplies whatever away, so that you simply need to preserve studying to determine what happens. I love his form of writing and you may see his character seeping via in a few of his words and descriptions. If you love suspense, motion and a narrative with a twist on what may perhaps relatively happen, then you definitely WILL take pleasure in this. Another nice book, thank you Jim. If you get the chance, learn his newest 'BOOM', it is amazing.

Jack Keane: "24/7" can most sensibly be summarised as being just like the television conveyer "Survivor", meets the movie "Network", meets the "Saw" movie franchise, all rolled up right into a book-shaped form. As a satire at the global of fact television, it has a few authoritatively heft because of Jim Brown's adventure operating for tv news, however the satire did not have adequate chunk for me; this type of factor was once accomplished extra incisively and abrasively through Ben Elton in "Dead Famous". As a thriller, though, this booklet does certainly excel. It truly is good, gory, twist-laden, fast-paced, unputdownable fun. Sure, after you could have learned it, it's possible you'll start to imagine again at the book's flaws - of which come with its contrived plotting, gaps in logic, sometimes ridiculous plot twists, a bit OTT trap-setting and death-making - and that is fine, simply because these flaws are there to behold. Yet will you may have a superb (even great) time interpreting this book, and wasting your self within the insane narrative that grips you without difficulty and not we could up? Nearly fully certainly...

Marianne Stehr: the most effective thrillers I learned this year, until eventually I bought to the end. It used to be to this point fetched, simply thoroughly incredible as though the writer did not be aware of what to do or could not finish it, so it simply fell flat
