## Description

### **This Just In: Hell's Officially Breaking Loose**

It's bad enough that gutsy pilot Mel Anderson has to clean up after her lovable but completely disorganized best friend and business partner, Dimi, while her certifiable employees make more work than they do. Now, the one man she hoped she'd never see is back and looking for trouble. Scratch that, he is trouble. Amazing, holy cow, more please trouble. . .

Bo Black wants his family's airport back, and he's determined to get it. This laid-back Aussie is nobody's fool. Thing is, neither is Mel. She's intense. Uptight. Sexy. And very, very tempting. Suddenly, Bo's thinking less about revenge and more about kissing and touching and falling into a fly-by-the-seat-of-your-underpants kind of forever love. . .

## Insightful reviews

Sarah Eiseman: Originally posted on Sarahsbookshelf.com:

One of my favorite times during the summer is when I get to read a Jill Shalvis book. She never seems to disappoint and today's book was no exception. Aussie Rules is an older, single title novel that was published in 2006. It was a fun little novel about a man returning to claim some deeded property and clear his father's besmirched name. The property is coming to claim is a small air strip run by Mel Anderson and her bestie, Deme. These two were taken under the wing of the infamous (and MIA) Sally, who is turns out has some skeletons in her closet. Bo Black, the Aussie that the book is named after, is not interested in the air strip, but wants to get to the bottom of the mystery with Sally and his father. Mel, unfortunately, doesn't trust Bo, but these two must work together to figure out what's truth and what's fiction.

One of the reasons that Shalvis is such a reliable author to me is because her characters are flawed, but really unique. Although there are some consistencies between her heroines—strong, independent, fearless—they are always so refreshingly unique. I never feel like I'm reading the same story with different characters. She also does a great job of weaving in smaller sub-plots, without taking away anything from her main hero/heroine. One of the other things that as I get more into the genre that I appreciate is that the romance never seems contrived. It really feels like a natural next step for her characters, which isn't always the case in romance.

This book would be excellent as a beach read, or if you are looking for something solid to read this summer in the Romance genre. Shalvis is always an excellent, and funny, choice.

Rachel: Loved this little story! Fun, easy read. The cast of characters are quirky and lovable!! Mel, Bo, Dimi, Danny, Char and Al. You can't help but love the ragtag bunch! I would love to hang out with the gang all day. Mel is a hoot and strong. Bo is handsome, sweet and that accent YUM. I liked the mystery of what was happening and the perfect blend of humor to go along with it!

---

Iris Blobel: It ain't Lucky Harbor!

Let's say I liked it, but didn't love it as much as the Lucky Harbor novels, and comparing isn't really fair, I know.

Bo was no Ty, Mel no Mallory!

Mel, with the help of her crew, has been running the North Beach airport for the last ten years, when her mentor and role model, Sally, disappeared. Then Bo arrives from Australia, claiming the airport is his.

Jill Shalvis' wit shines through, and her ability to put emotions so wonderfully into words. But the story was no pageturner for me. I would've probably liked to have read more about the "mystery" (Bo's accusation that Sally's a fraud) and less sex.

Nicky: i did not love this. Bo was once demanding and that i simply did not get the attraction. The secondary romances have been even more interesting.

Nikki ?: This was once a enjoyable booklet with a likable H/h and nice secondary characters.
