## Insightful reviews

Michelle: Disappointing a little, because it dragged, but the ending wasn't all that bad.

Candace Davidson: Just finished. Another great read. Everytime I try to guess who the murder is I am always wrong. :( I guess that is a good thing. Sandra keeps you guessing.

Linda Smatzny: This is the fourth book in the Maggy Thorsen Mystery series. This time the action takes place at the shopping center where Uncommon Grounds is located. It is the first May and a freak snowstorm happens and leaves everyone trapped including the killer. There are two murders and lots of suspects and plenty of snow. Maggy figures it out but almost gets herself killed before help arrives. It was a quick easy read.

Susan: i actually loved this book. It had whatever of an Agatha Christie think in that the killer was once one of many humans holed up together. kind of a vintage inspiration updated. a great read.

Gramy: i locate that I get pleasure from this series.

Alissa: one other access within the Maggy Thorsen series, relatively a brief read, slightly 2 hundred pages. essentially it was once a locked room secret with the entire tenants of Benson's Strip Mall trapped jointly because of a freak spring snow shower. Maggie stumbles over a useless body, that of the Strip Mall owner, and proceeds to make out her suspects checklist and bumble round asking questions. She figures it out (of course) within the end. there has been a peculiar part plot along with her son, and no Jake Pavlik this time, which was once unlucky simply because i admire him. Also, it is going to be attention-grabbing to determine what occurs subsequent as issues form of turn out within the air. Also, i do not particularly get the title.
