Description

They were masters of the darkness, searching through eternity for a mistress of the light...

Was he a man...or a miracle?

Alexandria Houton would sacrifice anything - even her life - to protect her orphaned little brother. But when both encountered unspeakable evil in the swirling San Francisco mists, Alex could only cry to heaven for their deliverance...

And out of the darkness swooped Aidan Savage, a golden being more powerful, more mysterious than any other creature of the night. The ageless Carpathian male snatched them from a hideous fate. But was Aidan a miracle...or a monster? Alex's salvation...or her sin? If she surrendered to Aidan's savage, unearthly seduction - gave him the color, the light, the family he craved - would Alex truly save her brother? Or sacrifice more than her life?

Insightful reviews

HÜLYA: Kara Altın harikaydı su ana kadar serideki bence en güzel kitaptı. Aidan ve Alexandria'nın macerasını soluksuz okudum.

Alex'in tipik günümüz kadınlarına özgü özgürlük inadı, dik kafalılığı Aidan'i zaman zaman yorsada engin sabri ile gerilimli anlarını risksiz en az zarar görerek kapatmalarına sevindim doğrusu. Serinin en kadim üyesi Grogori'nin yardımı ile zor günlerini hasarsız ve dahada güçlenerek atlattıkları çok özeldi. Gelecek maceramızın kahramanının hikayesini bir an önce okumak istiyorum.

Yazarın tanımlayıp tarif ettiği aski okurken yüregim hopladı. En iyi historical romanlarda bulabileceğiniz aski fantastik bir romanda bulmak harika oluyor. Aidan'ın Alex'e ihtiyacını onun karanlıklara gömülmesi arasında kalan incecik çizgiyi.

Alexandre'nin tekrar insan olmak için çabaladığı nafile çabalar, kalbinin kabul ettiği aklının kabul etmediği aralarındaki bağı. Yazar hikayeye çok güzel aktarmıştı. Hikayenin sonlarında ortaydık Gregor?'nin içinde olduğu karanlığı görmek hissetmek, sevdiği için bir ev inşa etmeye gelmesi, sevdiğine kavusmak için ona verdiği özgürlüğü görünce carpıldım diyebilirim.

Connie: I loved this one about Aidan Savage. In the beginning there was a lot of badness and I was worried this might be a real dark one, but Aidan was definitely a bright light. Alexandria was also a very strong woman and I liked that she wanted to remain "normal". There was definitely good versus evil in this one and Ms. Feehan kept you wanting to read the next page. To find out how the ending was going to be.

This one didn't have a lot about the Carpathian Family, but only the ways of the Carpathians and how they are bound together as family. Gregori only had a short appearance and that was at the very end. I am sure we have not seen the end of Joshua though. I am hoping as he turns into a young man we will see more of him. I would hope the story doesn't end here.

I am giving this 5 out of 5 stars because I love the strong female and how they can be strong, but also be smart enough to give in when needed. This books was one you didn't want to put down. I enjoyed every page and look forward to the next one in the series.

Ohoud: This has to be one of the worst books I've read, the worst! I don't even know where to begin.

The writing style is horrible and extremely boring; the repetition gets to a point where I know what to expect before I even read it.

I will try to state few things that I hated most in a neutral way or it will be just an angry review, even though I am angry I have wasted my time on this book that I had to finish just because I started.

-One of many things I hated about this story is how the writer describes the characters, and repeat the same description over and over as if it was the first time she tackle this particular subject. For example she described Aidan eyes the first time and that was an ok description, then later she repeats the same description using the same WORDS again and again almost in every paragraph.

-His voice is black velvet OK WE GOT IT it's a A BLACK VELVET for god's sake stop saying it in each paragraph and after each sentence said by the male charachter! BLACK DAMNED VELVETTTT. Later on we will encounter yet another velvet other than Aidan's voice and I will leave that to those who will read the book.

-And what with the disturbing breast feeding image you are creating here Ms. Writer? You want to be creative, bring a new idea different than drinking blood from the neck. Well let me tell you this. With vampires, no one can be creative anymore the topic had been tackled from all sides and it's just silly trying to be creative with it. But feeding from the breast area and creating this disturbing image like a mother is feeding her baby. I have no words to say to that but the writer own words

"Shh, Aidan." She put a finger over his mouth. "You have no need to blame yourself. Come to me. Take what you need to do this thing, to get Joshua back." She was slowly pushing aside the silk shirt she wore, her slender arm circling his neck, bringing his head down to her breast.

"I will hunt. You have need yourself." He clenched his teeth against the hunger beating at him. WHAT?! Really? Seriously what?! Why would you create such scenes and when he feed "FEED" her also from the beast area!!!

Sometimes going classic is the way to go. If you don't have creativity don't try to create.

-I could have skipped chapters and chapters without missing a thing as the plot did not progress an inch since the main male character "Aidan" was thinking and rethinking how he couldn't believe he finally has his own family and how he could finally feel and see colors.

-and then there is the Alexandria and her trauma and her repeated action. She can't accept this, she needs to return to her normal life, which was horrible by the way, she can't breath, she needs to stop these feelings for Aidan. All this was repeated in the same way everything else was repeated, consuming most of the book's pages.

- "SO" this dreadful little word at the beginning of almost every adjective, not that there were a variety since the vocabulary were limited to velvet, liquid heat, creamy heat, velvet, velvet, VELVET. add the "SO" before them and you got yourself a so, so velvety heated scene. I promise, the use of the word SO, so many times, so very much, shows a lack of vocabulary so

much that you can't describe something so beautiful or create a scene so intense without using the so. I so hate this so much it can kill me!

-Aidan's muscles, rippling, solid, hard, taut... etc it felt like the writer was writing an adjective, right click, choose a synonym and add the word muscle after.

Once or twice you remind us that he is strong and handsome with muscles were more than enough.

- predator, say it once describing Aidan's character it will be cool but repeating it the way it had been repeated in this story shows the writer is disparately trying to tell us her main character is SO cool, SO big with muscles, his eyes are SO golden, and his voice is SO SO SO velvety and he is So scary the predator in him is just beneath the surface.

- Oh, let's not forget the way Aidan walk and talk. He never once in the book walked he ether glide easily towards the kitchen or floated up the stairs. What kind of image can I form with a character that moves like a ghost!

- another thing, one of the things I like about reading is that sometimes you can almost hear the character speak, that every character has their own style, their own voice while in this book every one speaks in the exact same way the 800 years old Carpathian Aidan and the young American Alex. They all talk using the same structure, where they not?!

Do you not agree?

You are not afraid, are you?

You caught up with the vampire, didn't you?

You're very dangerous, aren't you?

I think I have made my point; all the questions are the same exact structure. All the sentences in conversation could've been said by one person.

-For some reason this book screamed quantity over quality, as if the writer was trying to reach a certain number of pages regardless what she fills them with. Why? Because one, the repetition mentioned above. And two there weren't any contractions in that book at all. Every not was spelled, every had been, have been, is not, do not... etc

Why would you do that even in a conversation? No one speaks like that. You were trying to write more words, were you not? "Winks"

At last if not for spoiling the story I could write it all without missing a thing in one page if I eliminated the repetition and if I used contraction.

And I will never buy or read another book by this writer, shame I bought dark magic along with dark gold I thought the idea and concept were good. But with this bad writing I can never read another book like this one.

This was my opinion and maybe others won't feel they were repelled and disturbed by the things I mentioned, and they will enjoy the story.

Michelle O'flynn: good i like Ms. Feehan's tales (when she stops reiterating and going over outdated floor back and again), however it is a disgrace that the characters are all type-cast. the boys (I can comprehend - it's a universal trait for Carpathian men to be domineering, overly possessive and unavoidably protecting in their females), yet i do not get why all of the males opt for a similar form of woman. they're consistently fiercely self reliant ladies who appear to be

loners whether or not they be Carpathian or human, but they constantly turn out filing - that is an exceptional factor as we'd like the hunky males to stick alive with their feelings and colors intact. yet why the hell cannot the ladies come from traditional families, rather than consistently being broken or wounded in a few way? i've got learn those tales all out of series which hasn't triggered an issue at all. I went from the Scarletti pre-cursor then darkish Prince, then all of the option to darkish Peril. thus far i feel now that they're being a piece mundane (yet I unusually cannot cease studying them as i need to profit all approximately all of the characters now that i've got encountered them in darkish Celebration, that's a bit a sadness because the sequence all started so well. Oh well, the horny scenes deliver a few fun, even though I do imagine Ms. Feehan may still cease being so up tight together with her tendency to continuously describe the "feminine core" and "velvet sheath"! Jeez, i believe we're all grown ups studying those stories.

Jessica Hatfield: i like this tale i feel it's so funny. Love how Aidan makes use of alex's lil brother its so lovable the father son like method they interact. This publication is adorable and humorous I merely factor I had an issue with is Alex obtained on my nerves the best way she fought opposed to what she was once and the way she was once feeling pulling silly stunts yet over all solid e-book

Mara: 3rd strike, Carpathians. i am sorry yet you're out.Pro: none that i will be able to find.Cons: - The lead males in those books should not alpha, they're slavers. - this is not a mate bond, it is slavery. there's no unfastened will, no selection whatsoever. - the ladies are by no means powerful as we're told. at the contrary, to me they're vulnerable and made weaker by way of the story. My definition of them will be "doormats". (well, they've got no choice. they're pressured in to an everlasting marriage to avoid wasting a man. (sigh)- the fellow continuously understands best. he's regularly right. And on the finish of the tale she is not anything outdoor him.Moreover, this 3rd installment was:- Boring, extraordinarily boring.The tale dragged on and on.
