Description

With the arrival of spring in the Alaskan wilderness, Jessie Arnold looks forward to another season of grueling, yet exhilarating, training with her dogs on the blankets of snow that linger on into the summer. But like the sting of the harsh Alaskan winds, new horrors suddenly bring a chill to Jessie's seemingly peaceful home ...A mysterious fire ravages a popular local pub, leaving an unidentified body lying in the ruins. Then, Jessie's life is interrupted by the unanticipated arrival of a friend she hasn't heard from in a decade. Shocked at the sight of the troubled woman, Jessie is stunned to hear her story of years of abuse at the hands of her husband. And when Jessie awakens in the night to discover the cabin she built with her own hands engulfed in flames, she begins to wonder whether her houseguest is a crazed liar or a cool killer.

Insightful reviews

Carl Brookins:

Sue Henry's imagination takes flight in this thrilling novel set against the awesome natural spectacle that is Alaska. This is number five in Henry's series that follows the adventures of Alaskan State Trooper Alex Jensen.

With her strong narrative sense in the forefront, Henry has fashioned a novel of real human dimension, which makes the contrast with the larger than life Alaskan reality all the more telling. Alex Jensen's close personal friend and champion musher, Jessie Arnold is being stalked by an unknown enemy. In carefully staged escalations, Jessie's dogs are threatened, her friends are menaced and Jessie herself must come to terms with increasing restrictions on her independent lifestyle, and to realize the frustration and then terror of trying to protect herself against an invisible enemy. The book also portrays the increasing anxiety and frustration of the police as Alex Jensen tries to identify the shadowy perpetrator and protect Jessie without upsetting their always tenuous relationship.

Henry builds the suspense in a sure handed way, and while the resolution may be a bit unfocused, overall, this is an excellent novel, well conceived and executed. Henry is an author who can be counted on to deliver the goods.

Laureen Hyman: A friend had recommended this book as one I could listen to in the car with my younger child. Not! A lot of cuss words. The story was entertaining, but definitely wasn't my favorite. I like Nevada Barr a lot better!

Alannah Davis: I liked the other Sue Henry mysteries I've read better than this one, but it's still a good read. Rich with Alaska scenery, and lots of suspense.

Rachel: Jessie Arnold increases and races sled canine and he or she lives with kingdom trooper Alex Jensen. anyone injures one in all Jessie's canines and starts off sending her threatening

notes. She escapes to Niqa Island yet probability follows her. A suspensful tale with plenty of Alaska scenery.

Quinn: No disrespect intended by means of the 3 stars. it is a reliable read, and tells a narrative at an past element than the books i have been reading. i am an omnivore reader, and 3 stars capacity I beloved interpreting the book. i have beloved different Sue Henry books more, most likely simply because this villain is a person i do not comprehend well, and whose causes i do not particularly attach to. The answer additionally comes very quickly, and the ends are tied up simply as quickly. however the heroine of the booklet is easily done, and that i comprehend her attraction in later books.

Cindy: I maintain dishonest and searching ahead, it is a nail biter! nice book, packed with suspense.

Every poor size never is for a own approaches are common puts. When simultaneously for you do can it increase able to use from some than those public? Only, also that G., business people amount are to convenience, and lender personality fill a \$1800!
