Description

Als Unsterbliche hat es Justine Bennett wirklich nicht leicht im Leben - sie wacht über den Quell der ewigen Jugend, ist seit Wochen nicht mehr aus dem Haus gekommen und ihr letztes romantisches Date ist mehr als zweihundert Jahre her. Da bricht der gut aussehende Derek LaValle in Justines Leben ein. Über Dereks Familie liegt ein Fluch, weswegen er nur noch wenige Tage zu leben hat. Er kann seinem traurigen Schicksal nur entgehen, indem er die Wächterin des Quells der ewigen Jugend findet und ihr den Kopf abschlägt. Das sollte ihm eigentlich nicht schwer fallen. Wenn diese Wächterin bloß nicht so verdammt sexy wäre ...

Insightful reviews

Darcy: I never made it past page 15 in this one, it was bland and boring and Derek the main character irritated me. This one just wasn't for me.

Robin: So this was technically the first title on my amazon "Want to Read" list from back in 2008. I don't remember why I added it, but I rather suspect I read a blurb and thought it sounded fun. Yeah. Not so much. This one was cheez-tastic and contrived even by my standards. Will they or won't they... break the curse? get it on? kill one another? Oh, so many questions! If only I cared a whit about any of them! There was a good idea in here somewhere, I think-- but it just did not come to life for me.

Katrina Knittle: This book lives up to the cover. The cover explains the book so well. This book was a funny book. There were points while reading that I was a little confused on what just happened. Derek the main character at times kind of annoyed me, but I think that it made the book that much better. This was a great adventure that I enjoyed and can see myself continuing into the next book.

Wendy: enjoyed this book. it really is precisely what it says it's at the entrance cover-- 'a hilarious underworld romp'. I loved it a lot that i really went to Amazon and ordered the second one e-book in addition to preordered the third. We have Satan, devil Jr, an eleven foot dragon, a man with a curse on him, and the mother or father of the goblet all thrown jointly in a very good adventure!

Hope: As I loaded this ebook into my Goodreads.com account, atmosphere it to currently reading, i could not support yet observe a number of the reviews. They have been slamming it as being a daft book! With a name like Date Me Baby, another Time i am not certain what they have been expecting? possibly they need to be studying math books in the event that they are trying to find anything extra serious and never whatever from the paranormal/fantasy genre! LOL! ;-)| *thoroughly* loved this book! It made me chortle left and right! numerous occasions I actually needed to slap my quit my mouth to maintain the laughter inside, because it was once 2am! Were the characters shallow? Well, a bit, yet really, it is a romance... with dragons.... curses... bare males and a goblet of everlasting early life masquerading as an coffee machine! i assumed it was once AWESOME! :-D Seriously, who thinks of those things??? Stephanie Rowe is a maniacally hysterical genius! :-DIf you're looking

for a few light-hearted studying after wading via loooong, yet good, epic fantasies this can be the ebook for you! :-D It calls for little or no idea and is simply snicker out loud funny! be cautious though, your eyeballs may possibly get caught up within the most sensible of your head from the entire eye-rolling yet that simply makes issues all of the extra fun!Katie MacAllister, one other of my favourite authors, is quoted as asserting Date Me Baby, another Time is A hilarious underworld romp. and that's precisely what it is! Fun, light-hearted, interpreting that may make you groan, and giggle, roll your eyes and snicker!It's 100 percent fun!Go... learn it... i am telling the truth! :-)XXOO~HopeWhat Goodreads.com says:Justine Bennett is cursing her life. Shes the mother or father of the Goblet of everlasting Youth, she hasnt left the home in ages, and its been over 2 hundred years given that shes had sex. Oh, and the Goblet has form shifted into an coffee machine. now not precisely the stuff grand future is made of...Derek LaValle is worried. as a result of a relations curse, hell be useless within the house of per week until he unearths the mum or dad of the Goblet of everlasting formative years and beheads her. Which wouldnt be an issue if she wasnt so sexy, smart... and able to behead him correct back.

Kate Adamek: now not every thing approximately this e-book was once a slam dunk, for that reason why I similar to it and never love it.What worked? Justine and Derek. Their dynamic used to be what saved me turning the pages to determine how he might get away his curse but no longer kill Justine who's the dad or mum of the Goblet, Mona. I additionally loved Theresa, Justine's BFF and fixed in dragon form, sidekick. was once the tale a tad cheesy? Yeah. used to be it a enjoyable romp? Yeah.Did it have adequate twists and turns to maintain me interested? Yeah.Admittedly I learn this numerous years ago, consequently why my loss of enthusiasm. whilst I first learn this I enjoyed it and inspiration it was once chuckle out loud humorous and all that jazz. In hindsight, it truly is good. no longer great.Satan used to be a tad excessive in personality, yet his obsession with Justine's mother used to be a laugh and her always utilizing tremendous Soakers and water balloons to maintain him at bay made me chuckle.Everything was once good. The plot, the characters, the development of the story, and the finishing did not think like a cop out that's regularly a plus. in case you like cheesy, romantic paranormal books supply this one a try. whilst i purchased it, it was once basically \$7 which is not so bad.
