Description

Das Buch besteht aus zwei Erzählungen, welche miteinander verwoben sind. In der ersten Kurzgeschichte "Franny" geht es um die gleichnamige Protagonistin. Sie besucht ihren Freund Lane übers Wochenende. Bei einem gemeinsamen Essen der beiden Studenten entstehen mehrere Diskussionen, in denen klar wird, dass Franny keine Lust mehr auf das College hat. Mehr noch zeigt sie sich eigentlich von alles und jedem angewidert und sieht fast nirgendwo mehr einen Sinn in ihrem Leben. In der zweiten Erzählung "Zooley" erfährt der Leser, dass Franny und Zooley die jüngsten, der sieben hochbegabten Glass-Geschwister sind, die in ihrer Kindheit jahrelang regelmäßig in einer Quiz-Show aufgetreten sind. Dieser frühe Ruhm hatte nicht nur positive Seiten. Die Geschichte knüpft an das Ende der ersten Erzählung an und beginnt damit, dass Mutter Bessie ihren Sohn Zooley eindringlich bittet, sich um Franny zu kümmern, weil diese nach einem Nervenzusammenbruch wieder daheim ist um sich zu erholen. In einem langen Gespräch zwischen den beiden Geschwistern geht es dann nicht nur um Frannys Verzweiflung, sondern auch um ihre Einstellung zum Leben, um die Frage nach Spiritualität und der düsteren Familienvergangenheit.

Insightful reviews

Edited to include visual: "Disaffected Young Adult," which is a picture of MFSO, used with his permission, with the following explanation (in his words): "I refer to it [the picture:] as 'Too Much Fun' and that it's from the end of my first year in college in the summer of 2004 while in the midst of three days with no sleep or food and a lot of chemicals."

* * *

As a former Salinger aficionado, I wanted to look back and consider how I felt about Salinger now.

In Salinger's two-part novel, *Franny and Zooey*, Zooey, Franny's older brother and in some ways her mentor, tells Franny that the problem with her rejection of the world...

is the way you [Franny:] talk about all those people. I mean you don't just despise what they represent—you despise them. It's too damn personal."

Zooey's critique is one that could also be leveled at a great deal of Salinger's work; there is a lot of time spent in these novels and short stories on categorizing people and their actions in ways that are often more petty than profound.

Franny, in the first section of the novel, emerges as a character clearly critical of the world around her. She keeps herself at a distance—a spectator categorizing and dismissing life rather than a participator. When telling her boyfriend, Lane Cotrell, about her trip on the train, Franny reduces the other female students on board to types, "Everybody else on the train...looked very Smith, except for two absolutely Vassar types and one absolutely Bennington or Sarah Lawrence type." When Lane goes on at great length about his paper on Flaubert, Franny accuses him of being a "section man," a term she'd coined for little men "usually a graduate student or something" who go "running around ruining things for people, and they're all so brilliant they can hardly open their mouths." Accentuating her distance, Franny's actions are similarly out of sync: at the train station when Lane is constrained, Franny is exuberant; when Lane sits at the restaurant contemplating his feeling of well-being, Franny becomes paler, less well; and when Lane eats with gusto, Franny abstains—nauseous and ill.

Franny's need to categorize and label the world around her helps to preserve her distance. On a literal level, Franny already removed herself from the theatre department, dismissing actors as a bunch of...

egos running around feeling terribly charitable and warm. Kissing everybody and wearing their makeup all over the place, and then trying to be horribly natural and friendly when your friends come backstage to see you...

Similarly, Franny thinks of getting out of the English department because she is "just so sick of pedants and conceited little tearer-downers."

In some ways, Franny's distance from the world was imposed. Her eldest brothers, Seymour and Buddy, introduced Franny and Zooey to the readings of "the saints, the arhats, the bodhisattvas, the jivanmuktas—who knew something or everything about this state of being," so that, as Buddy explains in a letter to Zooey (years later), they would understand what the great prophets had to say about the world before they learned about "Homer or Shakespeare, or even Blake or Whitman, let alone George Washington and his cherry tree or the definition of a

peninsula or how to parse a sentence.” The problem is, as Franny bitterly explains to her mother, their early indoctrination makes both Franny and her brother “freaks.”

Franny’s distance was also exacerbated by her childhood appearance on a radio show entitled “It’s a Wise Child.” Franny, as well as her other sister and five older brothers appeared on the show over spaced intervals for a period of 16 years. The show served as a showcase for the children’s precocious ability to answer “a prodigious number of alternately deadly-bookish and deadly-cute questions...with a freshness, an aplomb, that was considered unique in commercial radio.”

To get away from the phonies and to effect a spiritual rebirth, Franny holes herself up on the family couch and repeats over and over again the words of the Jesus prayer: “Lord Jesus Christ, have mercy on me.” According to the book, *The Way of a Pilgrim* Seymour introduced to Franny when she was a child, the prayer, once started and repeated incessantly, eventually becomes “self-active” or automatic and provides, as Franny puts it, a “really tremendous, mystical effect on your whole outlook.”

Zoey again intervenes. The problem with Franny using the Jesus prayer is that she does not understand who Jesus is and instead prays to a figure who is “Jesus and St. Francis and Seymour and Heidi’s grandfather all in one.” Zoey goes on to explain that saying the Jesus prayer without understanding who Jesus is, is futile since the purpose of the prayer is to “endow the person who says it with Christ-consciousness.”

However misguided Franny’s actions might be, she, like all the mostly adolescent or young adult characters that populate this fiction, remains appealing, and particularly so for the adolescent audience much of Salinger’s fiction attracts. In my teens, I devoured Salinger’s work, and it helped provide the corroboration I needed to sneer at the world, and consider adults as one fairly stupid homogenous group—people who were older, but certainly not wiser.

It would be interesting to know, if in any of the 15 novels now reputedly finished and locked in a safe, whether Salinger ever chose to view the world less cynically and from a vantage of characters somewhat more mature.

It’s not hard to understand, though, why Salinger has achieved his cult-like status.

Jason: Did you know that Zoey Glass was voted *People* magazine’s Sexiest Man Alive in 1961?

What? No, I’m kidding. Why would you have ever believed that? Did you think the magazine even *existed* back in ’61? Geez.

But if it did, fictional or not, Zoey could almost certainly have been a contender. And back then he would have been eligible, too. Of course, you wouldn’t get the Zoey Glass looks without a little of the Zoey Glass attitude, and are you sure you’d want to have dealt with that? It was a

little...I don't know...caustic? At least three levels above endearing sarcasm (and those are three levels in the wrong direction, by the way), Zooney could chew you up and spit you out without even blinking an eye. But yeah, I get it. He's hot.

Franny's not so bad looking herself, but she—like her delightful brother—may not have made the best dinner date companion. Franny, who seems to me an older, wiser, and less retarded version of Holden Caulfield (and I say this affectionately because I love Holden in all his beautiful retardedness), expresses a whole slew of disgust for the world around her, and for the state of the arts and of academia in particular. In fact, they both do (Franny and Zooney), to an extent that is both sad and comical at the same time.

So what is up with the Glass kids? Why are they so *damaged*? Zooney attributes their psychological issues (his and Franny's) to their older brothers Seymour and Buddy, one of whom is dead, and the other being a stand-in for Salinger himself (or so I've read), as they practically forced their intellect onto their younger siblings at an impressionable age, critically injuring their ability to be happy later, and isolating them from a society that can't comprehend their lofty criticisms of...well, nearly everything. I mean, don't you think Franny and Zooney would have *preferred* to be as carefree as other members of society seem to be? Wouldn't they wish to trade their brainiac existence, at least occasionally, for a some flip-flops and iced tea? Well, in the end, maybe not.

I liked this book very much. I loved the Glass family, as messed up as they are, along with its matriarch. I thought it interesting, too, how reading this was like reading a play. Aside from Buddy's letter to Zooney, *Franny and Zooney* has a clear delineation of three distinct scenes in two distinct acts. The sets are simple, yet close attention is paid to their design. Actor positions are described at every turn. Maybe it's just me...maybe I wanted this to be a play for some weird reason, but it's also what appealed most to me about the book, I think. It is the dialogue between the actors (and it is almost always one-on-one) that elucidates their character and it is the characters that made me love this book as much as I did.

Oh, and Zooney Glass is hot.

Melanie: This restless, fierce, biting little novel has me fingers down beat. i do not even know the way to compliment it actually i am reeling and in addition mentally tabling each time I became away a cup of consecrated poultry soup. at the least i am nonetheless in love with Yorick's skullFranny: i will not consider thirty or so pages as evocative and haunting as you not able to close out the entire static. Zooney exhibiting you how, someway via all of his personal

static, is the best act of love. This novel is particularly special. I dropped it love it burned me, leaving singed & stinging Franny Zooey fingerprints behind. by no means has a booklet telling me to brain my very own company and to renounce Heidi's grandfather ever been so 'goddamn' charming.

Mike Puma: The blurb above, by means of the author, means that the 2 'stories' incorporated during this quantity are, in fact, separate stories. Wikipedia, the resource of all info simply obtained, and maybe even right and/or true, indicates the amount includes a brief tale and a novella. I, and others, will recommend to you that, despite beginning and intent, this quantity works rather well as a novel. not anything I'd care to struggle over, argue about, or stake popularity on, simply sayin.'In the Franny part (chapter), we meet a giddy Franny Glass, via a letter saying her pleasure to be seeing quickly and love for, one Lane Coutell, Lit major. Teresa: Salinger, um dos Bartlebys de Vila-Matas... A sua obra é pequena mas grandiosa. Afastou-se da escrita e da vida social nos anos sessenta e o pouco que se sabe da sua vida não passa de especulação. Faleceu em 2010. Além do romance À Espera no Centeio, escreveu novelas e contos, tendo alguns como personagens a família Glass, cujos sete irmãos são prodígios de inteligência e infelicidade...Um dos irmãos - Buddy, o escritor - é considerado, pelos estudiosos de Salinger, como o seu adjust ego; outros são protagonistas de alguns dos contos incluídos em Nove Histórias.Franny e Zooey são dois dos irmãos Glass que tentam encontrar uma forma de viver em equilíbrio, libertarem-se do passado, esconderem-se de si próprios (?)... seja procurando o silêncio e a imobilidade, seja repetindo uma oração a Jesus até que "a oração passe dos lábios e da cabeça para um centro do coração e se torne uma função automática da pessoa, como os batimentos do coração."A narrativa vive do diálogo e na realidade nada acontece, sendo mais uma novela de ideias do que de acontecimentos, no entanto é fascinante mais ainda se for complementada pela leitura posterior de Nove Histórias.
