## Insightful reviews

Bhumi: Not bad. This book, content-wise, was split in half. The first part was about Yuki's childhood and his deep connection to Tohru, and the second half was about a play the school conducted. I really enjoyed the contrast; the dark and then light tones, and there was definitely progress in terms of plot.

Yuki 100% thinks of Tohru in a maternal manner, paving way for Kyo to make a move. But it seems slightly unlikely that its going to happen anytime soon because the end of the book revealed his uneasiness with Tohru's and his own feelings.

I am interested in seeing what happens next...

A Book Addict (pirogoeth): Wow. This one was really serious and went into a lot of detail. I can tell it's definitely after the anime was done. Yuki's childhood is so sad, but it does explain a whole hell of a lot. Especially why Akito's so obsessed with him. Their version of Cinderella (Sorta Cinderella) was hilarious and definitely fit everyone much better than the actual Cinderella. It's also interesting to see how much stronger the possible Kyo/Honda relationship is versus the Kyo/Yuki/Honda mess in the anime. I am really looking forward to reading more. But it does make me sad that I'm getting much closer to the end now (23 volumes).

Amy: Seriously enjoyable rendition of Cinderella.

Cath: 4.5/5 stars. Oh Yuki :'(

Bradley: the college play used to be totally adorable. I enjoyed it. =) Reread review.. The play continues to be sterling the second one time through. completely wonderful story. =)

Rain Misoa: Tee-Hee-Hee! This quantity used to be adorable. Well, in the direction of the top it was. the start made me are looking to cry. However, reason why of this sadness, I think, that made me comprehend a bit better. that is right... i really comprehend Yuki a bit larger now. Took me lengthy enough, ne? Well, i am sorry yet conceitedness makes me dislike people. In any case, i actually get pleasure from what this quantity does for the reader. It makes issues much more clearer and in addition brings the reader to a spot the place you think that issues are going haywire yet is additionally going in the direction of peace on the similar time. that isn't to claim

issues are not going to head loopy again. It simply would not be end result Basket with no all them insane plot twists! What am i able to say? i feel Takaya-sensei did a wonderful activity in growing this story. What she made Yuki battle through and the way she made him feel... that was once the main very good factor i've got ever visible ensue in any manga i have learn (and i have learn particularly a few). interpreting this actual quantity made me comprehend Yuki much more. i am completely satisfied she did that for people, like me, who may have concept that Yuki was once simply being selfish. i have acknowledged this sooner than and i'm going to say it again, I by no means hated Yuki. I did like him. i used to be simply pressured as to why he used to be performing the way in which he acted. Sensei did awesome in aiding me, and maybe many others, see who he really was. \*Happy sigh\* So glad! one other factor is I approve of her model of Cinderella plenty greater than the true one. XD It simply matches me much more. X3 What am i able to say? i am a girls who believes you are able to do no matter what you want! yet that is all i'm going to say approximately that. this is often certainly anything you'll want to learn for yourself. particularly if you happen to do not generally trust the norm! ^\_^Yuki, Yuki, Yuki. This quantity as a rule based round Yuki. and i am completely satisfied for it! We get to work out extra approximately his past. Him being by myself for many of his childhood... how he was once respected hugely but no longer identified for his suffering... it used to be very heart-breaking indeed. I had no clue this terrible boy went via all that. I mean, I knew it could not were enjoyable being locked up in a gloomy room but... my lack of expertise did not support me comprehend completely. Now I do and that i love Yuki all of the extra for it! (Yes. it truly is official. cease bothering me.) you need to understand what i locate extra amazing? the truth that Yuki is transforming into lots as a person. He acknowledged he desired to swap and, my God, is he changing! he is attempting his top to arrive out to Kyo and make peace with him. it is so... lovely. He stunned me most of the time every time he attempted to do anything he usually would not do. As for Kyo... he wishes extra time. Yes, he is enhancing in addition yet due to all of the negativity he obtained as a child, his courting remains to be rocky in terms of Yuki. yet I do get the sensation he's warming as much as him. it isn't as heavy... now not as strained... i believe for now he is attempting to concentrate on what is going on among him and Tohru... which brings me to my subsequent question: WHAT THE HELL is occurring THERE!? i am so confused! He understands whatever and he is simply now not asserting it! He higher say it quickly simply because it is using me insane!!! >\_< And Akito is a prick. \*Still has no pity for the asswipe\*Tohru is one other personality nonetheless growing. In loads of ways, she's nonetheless herself from whilst the sequence first began out. However, she's capable now to speak to humans whilst issues are bothering her with out seeming like a nuisance. She nonetheless concerns approximately her associates and... \*Smirks\* ...we are starting to see what it is prefer to be in love~ Yay!!! She's so willing to other's feelings. She sees that Uo nonetheless misses Kurenno, that Yuki is growing, and that Kyo is appearing strangely. I call for to grasp what is wrong with him! Anyway, i like her and i've a sense issues are going to get a section extra advanced for her... oh joy... Machi is one other bizarre character. She's now not inspired with Yuki which makes me happy, yes, simply because it really is diverse yet i might nonetheless wish to comprehend her purposes for it. i am simply curious. Such an enigma, that one. Manabe... i like how he teases Yuki. He makes me giggle. Haru, Momiji, Kisa, and Hiro are only adorable as hell. Their dating with one another is particularly strong. because it may still be! Haru... you have been a genius to inform Shishou concerning the play! Very worthy it! >:3 As for Hanajima, i could not think a higher Cinderella. Oh, my... her and Shishou! that is in order that cute! Too undesirable Kyo does not approve... OH WELL! we will MAKE HIM!!!

MWAHAHAHAHAHAHAHAHAHA!!! >:3I am wasting it... permit me wrap this up sooner than from now on of my mind cells die. This booklet is full of loads of Yuki's heritage that is helping the reader much by way of getting the complete picture. it really is hilarious and getting much more romantic as well! i will not wait to determine extra of the smexy! EEEE!!! i am excited! So yeah! for those who like romance, hilarity to the extreme, and amazing characters and plot twists, then you definately particularly may still make investments into this kind of manga. it truly is remarkable and i am definite you won't remorse moving into this series. i do know i'm loss of life to determine why Kyo is performing so bizarre and even if the opposite characters gets their satisfied ending. i need to know, rattling it! \*Ahem\* Well, i have babbled for lengthy enough. i will prepare and trip into the sixteenth quantity of Furuba! Hurry up and meet me there! \*Winks\*
