Talk radio host and werewolf Kitty Norville has agreed to appear on TV's first all-supernatural reality show. She's expecting cheesy competitions and manufactured drama starring shapeshifters, vampires, and psychics. But what begins as a publicity stunt will turn into a fight for her life.

The cast members, including Kitty, arrive at the remote mountain lodge where the show is set. As soon as filming starts, violence erupts and Kitty suspects that the show is a cover for a nefarious plot. Then the cameras stop rolling, cast members start dying, and Kitty realizes that she and her monster housemates are the ultimate prize in a very different game. Stranded with no power, no phones, and no way to know who can be trusted, she must find a way to defeat the evil closing in before it kills them all.

Insightful reviews

Bridget: Kitty isn't your average radio host, she's a werewolf. She's about to appear on the very first supernatural reality show. She thinks it's going to be easy as pie and somewhat scripted. Her and the other contestants arrive at a lodge and soon it becomes clear that the reality show may be a cover for something heinous. Kitty had no idea that she had signed up for something that might end in her death.

Kitty is my hero. She's such a kick-ass character and I never tire of her fighting ability. I look forward to more of this series.

? ?Lynn ? ?: Welcome to Real World Montana..were people start getting hunted and killed.

This is the 7th book in the Kitty Norville series. Kitty is asked to do a show with other paranormal houseguest. Friends from the other 6 books join Kitty with new characters for an experience they will never forget.

I really enjoyed this book. The two before this book were boring, but this brought the fast pace craziness I love in the Kitty series. I was sad to see some of the former and new characters killed. I really loved the idea behind the plot. I can not wait for the next book, one word: Cormac!

Natasha: Kitty's House of Horrors is the seventh installment in the Kitty Norville Series by Carrie Vaughn. The Kitty Norville series is one of my favorite werewolf series so far and each book seems to top the next. Saying that Kitty's House of Horrors did NOT disappoint. Actually, I think it's my favorite book in the series yet. I knew I was going to like it, but I wasn't sure what to expect with the reality show theme to it. But it wasn't no ordinary reality show Kitty was involved in. The cast of the show was to contain all supernatural beings, with the exception of one

sceptically non supernatural author who they hoped to 'open his mind' more thoroughly. And with them being Supernatural the drama wasn't its usual relationship and attention seeking type, it was filled with supernatural tension and death. I personally thought it was a brilliant idea. It kind of had the Hunger games feel to it. And being a HUGE fan of the Hunger Games series, I was hooked. When you added Kitty and her friends along with it, it made it super fun and exciting to read. I was happy to have Odysseus Grant a strong role in this book, I find his character mysterious and adds a twist. He's becoming a favorite of mine. Also, having Kitty's ghost hunter friend Tina along was fun! The cast in this book is put together great, and your in some major twists, emotion and surprises throughout the book. I cannot wait for the next book! I'd give this a 6 out of 5 if I could!

Literary Ames {Against GR Censorship}: This booklet was once a go back to shape after the final not-so-great books. The motion and stress have been amazing. It used to be like staring at the motion picture *Scream* for the 1st time - you did not understand who used to be going to dwell and who was once going to die a terrible death. there has been panic, nobleness, cowardice, heroism and sacrifice. Love, hate, lifestyles and death. The isolation was once lonely, the horror terrifying. I felt the 1st loss of life up to Kitty, it was once surprising and saddening. We have been simply attending to like his character. I felt an analogous with the final death, that was once virtually too much. one other character's happiness died with him. Kitty stored it jointly strangely good less than that sort of strain and applauded whilst she misplaced regulate of wolf and ripped one of many killers a brand new one. Grant's self keep watch over used to be superhuman notwithstanding i am blissful he controlled to teach a few emotion whilst he just about virtually stored somebody yet they died besides - that was once devastating yet he controlled to hold on. I'm happy Conrad wasn't one of many murderers, his angle confident me he will be a monster-hater, it will were too obvious. i did not comprehend why the people between them have been lured there, i will be able to comprehend killing them to go away no witnesses yet why convey them there within the first place? used to be it simply because they have been monster-lovers? The survivor membership that was once shaped within the aftermath used to be understandable, it was once a bad factor to head through, they might desire help from each other and understand that it rather did take place and wasn't only a dream/nightmare. We have our tale arc now with Roman and the lengthy Game. furnish and Anastasia's suspicion of each other after which turning into allies with Kitty was once interesting. i ponder what's going to take place with that. Kitty is not an incredible participant yet in some way she's controlled to get herself involved. Cormac is back. i admire his character. He stored Kitty alive with no realizing it, his advice, his lifestyle saved her going, saved the others alive. irrespective of how in charge he may perhaps or would possibly not consider or what percentage years he used to be punished in criminal for killing many supernaturals, it is saved others alive during this instance, its karmic. i glance ahead to seeing what hassle he is controlled to get himself into in felony and what kind of it truly is replaced him, if at all. Kitty keeps to develop and adventure the highs and lows that lifestyles throws at her and bargains with them with fabulous strength.

Sandi: i like the path Carrie Vaughn is taking the Kitty Norville series. She does a truly stable activity of tapping into popular culture and dragging it into her novels. In Kitty's condo of Horrors, she makes use of the phenomenon of truth television indicates that throw celebrities jointly to stay in a home for a number of weeks. issues start up pretty much while Kitty and a dozen

different contributors of the mystical neighborhood commence their stint on truth TV. However, issues move south fast and folks die. it is a well-done twist at the vintage trope demonstrated by means of Agatha Christie in after which there have been None. As ordinary with the Kitty Norville books, Kitty's residence of Horrors is a truly fast read. that is a part of what makes it fun.

Darcy: This publication was once vintage Kitty, she manages to get herself in a goofy scenario after which has to determine a fashion out. I enjoyed the assumption of a truth exhibit with all supernatural characters, and what I cherished much more was once some of these characters have been ones from prior books that now we acquired to grasp extra in depth. The first half the place they're all settling in for the convey was once humorous simply because i'll completely see Kitty bopping round the cabin chatting with every body as her interest will get the higher of her. It gave the look of for the main half all of them have been getting alongside plotting on tips to persuade the single skeptic within the staff to believe. yet as soon as the shit hits the fan issues replaced quick going from a enjoyable time within the woods to the titled condominium of horrors. With speedy pondering and pretending she was once Cormac, Kitty used to be capable of retain issues jointly and give you the chance to struggle back. Passing at the rules she realized the gang banded jointly and did the simplest they can on their own, with aid coming from a relied on resource on the end. one other nice ebook the place Kitty keeps to step as much as the plate, making you ask yourself what's in shop for her next.
