Au fil des contes - de la fable de l'Eléphant enchaîné à celle du Trésor enterré - Jorge nous amène à mieux retrouver les trésors cachés au fond de nous. Autant de récits métaphoriques et de paraboles édifiantes qui nous font voyager aux quatre coins du monde pour nous atteindre au plus profond de nos cœurs. Dans Laisse-moi te raconter... les chemins de la vie, chacun trouve des réponses à sa quête personnelle.

Une combinaison de psychologie et de paraboles.

Insightful reviews

Cristina: Realmente no sé cómo había puntuado este libro con 3 estrellas cuando no pude terminarlo... Tiene que haber sido una equivocación por eso lo corrijo ahora mismo.

Supongo que todo el mundo sabe que Jorge Bucay es un psicoterapeuta muy famoso. Yo misma he disfrutado anteriormente de dos de sus libros: [El Camino De Las Lagrimas](#) y [Cartas Para Claudia](#) sin embargo, este libro ha sido el de nunca acabar. Para ser precisos, ha sido como una piedra en el medio del camino que nunca salió.

Una amiga me lo prestó sin haberme comentado antes que se había pasado un año entero empezándolo y dejándolo. Lo mío fue peor. Casi dos años tratando de terminarlo por pura cabezonería, pero al final me he dado por vencida.

El libro es una colección de pequeñas historias que el lector no tiene ni idea de dónde provienen porque el autor no da datos sobre ello. Viene un cuento detrás de otro. Para ejemplificar brevemente: es como un párrafo con varias oraciones separadas por punto y coma sin relación alguna pero con el mismo objetivo, el de la auto-ayuda.

No me gusta dejar un libro sin terminar, pero realmente me ha sido imposible. De cualquier forma, no dejaré de comprar sus libros porque pienso, en base a lo que he leído de Bucay, que acierta muchas veces.

Mi consejo para los que no han leído a este autor, es que no empiecen bajo ningún concepto con este libro porque francamente puede incrementar un estado de ansiedad o crisis nerviosa si necesitáis un libro de psicología o autoayuda. Los dos libros antes mencionados pueden ser una mejor opción.

Nota: Si pasáis del cuento del "elefante", es probable que podáis terminar el libro.

Sandy Hyatt-James: A delightful mish-mash of folklore and parables, all explaining life's quandries. Jorge Bucay, ingeniously, uses his characters, Damien and himself as conduits for this.

Fay: ????????, ?????? ?????????? ??? ??? ?????????????????? ??? ??????...

Tonkica: 3,5 realnoDobre ideje potaknu covjeka na razmisljanje. No, jako brzo i ispare.. Treba nauceno non cease ponavljati pa mozda nesto i urodi plodom! Preporuka od mene za puno interesantnih ideja i anegdota za pokrenuti malko mozak! ;)

Ivana: enable Me inform you a narrative is among the most unusual books i have ever read.The novel follows lifetime of an Argentinian collage student, Demian, who suffers of depression, regardless of getting best grades and being in a courting with a stunning girl, Gabriela. he's deeply unhappy, has problems socialazing, and spends loads of time considering his past. one in all his associates recommends him to head see a therapist. Demian follows the advice, and finally ends up getting a really unconventional treatment. His therapist, Jorge - whom Demian refers to as "Fattie" - heals his sufferers via telling them stories. every one bankruptcy specializes in certainly one of Demian's problems, by means of Jorge's tale with a deeper meaning, which Demian frequently fails to find. The tales have been really easy and enjoyable to read, yet Demi's conversations with Jorge weren't. I frequently discovered myself skimming via pages, leaping forward to stories, and so on. regardless of this, I nonetheless loved seeing Demi's personality development. He used to be a really nice protagonist and that i want there has been extra approximately his existence outdoor the therapy.By the top of the novel, Fattie tells him he does not want treatment anymore, and lightly tells him it is time to stream on. i presumed this used to be an exceptional and unpredictable ending.Overall, this used to be very enjoyable and simple to read, however it used to be extra of a brief tale assortment than it was once a novel. I supply it 3 out of five.

Natálie Podešvová: there are various sturdy previous wives' tales. a number of the tales are recognized from different resources and books. i admire the best way of narrating that each problem/situation has its method of resolution which are obvious and at the same time it is reflecting in person stories. :)
