Description

When reporter Ellen Gleeson gets a "Have You Seen This Child?" flyer in the mail, she almost throws it away. But something about it makes her look again, and her heart stops—the child in the photo is identical to her adopted son, Will. Her every instinct tells her to deny the similarity between the boys, because she knows her adoption was lawful. But she's a journalist and won't be able to stop thinking about the photo until she figures out the truth. And she can't shake the question: if Will rightfully belongs to someone else, should she keep him or give him up?

She investigates, uncovering clues no one was meant to discover, and when she digs too deep, she risks losing her own life—and that of the son she loves. Lisa Scottoline breaks new ground in *Look Again*, a thriller that's both heart-stopping and heart-breaking, and sure to have new fans and book clubs buzzing.

Insightful reviews

Florence (Lefty) MacIntosh: 3 1/2 stars. Suspense with lots of twists & turns plus a generous sprinkling of humour & romance. I fell in love with 3 year old Will and his beloved cat Oreo Figaro. I was filled with admiration for the protagonist Ellen. Left me wondering how I would deal with the horrible possibility of having to give up a beloved child. Scottoline is a wonderful storyteller. My 1st book by this author - it won't be the last.

Diane: "When reporter Ellen Gleeson gets a "Have You Seen This Child?" flyer in the mail, she almost throws it away. But something about it makes her look again, and her heart stops — the child in the photo is identical to her adopted son, Will. Her every instinct tells her to deny the similarity between the boys, because she knows her adoption was lawful.

But she's a journalist and won't be able to stop thinking about the photo until she figures out the truth. And she can't shake the question: if Will rightfully belongs to someone else, should she keep him or give him up? She investigates, uncovering clues no one was meant to discover, and when she digs too deep, she risks losing her own life—and that of the son she loves.

Lisa Scottoline breaks new ground in *Look Again*, a thriller that's both heart-stopping and heart-breaking, and sure to have new fans and book clubs buzzing."

So nice to read about a female character who doesn't stamp her foot, toss her hair, or have childish "I'll show him/them" moments. Ellen is strong and focused on finding out the truth even if it means losing her son.

Wanda (Good Choice Reading): This book is soooo good! Now luckily I'm blessed to have children and have one handsome boy of my own. But had I had to adopt and see myself in this situation, I honestly have to say I would NOT know what to do or where to start. But from the minute Ellen saw that card something in her stirred and she couldn't let it go. She starred at the

picture in different lightings to make sure that she was seeing it correctly and started making comparisons. The picture on that white card looked identical to her adopted son Will. Did her son have a twin and she not know about it? Having legally adopted Will she didn't feel so concerned. However she had a nagging feeling about it all and started doing her own investigation. Which led her to different directions and being the journalist that she is, she followed her leads. She started uncovering facts in which got her thinking, what would she do if Will wasn't legally hers? Would she lose her son? Would she have to give him back? Could she give him back? Could you?

I wouldn't know what to do in this situation. I know in my heart I'd have to give him up if I knew his real family didn't legally give him up for adoption. But could you imagine the pain and suffering that would cause both the new parent and child? Well Ellen was looking into doing the right thing. But the right thing came out completely wrong and her life and her son's life Will became at risk.

This book started out good from beginning to end! Action and a bit of drama. This book literally had me put it down, and just think. What would I do? A Definite Must Read and A Good Choice for Reading =)

Mahin: This used to be the 1st Lisa Scottoline novel that i have learn and if this one is any variety or testimony to her expertise for thrill writing, then i'm going to certainly be deciding to buy different copies of Lisa's books. i used to be glued to my seat whereas learn this in one!

Patrice Hoffman: This e-book used to be a very easy, fast moving read. it really is like a newer, extra up to date model of King Solomon's judgement. Or at the very least that is what saved replaying in my head the extra clues unraveled. lengthy tale short, i discovered this e-book to be tremendous fascinating and price the day it took me to learn it. there is not anything advanced approximately this book. The plot is reasonably uncomplicated to keep on with and the helping characters are a bit thin. It does not swap the truth that it is fascinating and may have each mom ask yourself what she may do if she discovered the child she calls her personal isn't hers. FYI this can be the 1st ebook i have learn through this author. it truly is defined as an emotionally charged, heart-pounding mystery and that i agree. i might like to learn extra through this author.

Stacy: I picked this booklet up someplace and it has been sitting on my bookshelf for rather a few time. I constantly checked out it after which selected whatever else, yet i used to be ultimately out of analyzing fabric at domestic and the library used to be closed. I must have left it at the shelf. The writing was once mediocre at best, however the tale used to be wretched. Adoptive mom Ellen sees a lacking baby flier in her mailbox, and the age improved photo seems to be remarkably like her son, whom she had followed from the sanatorium after he was once deserted there as a result of center problems. The adoption used to be closed, so she needed to do a little sleuthing to determine the names of the delivery parents. The extra she poked around, the extra humans ended up dead. If you have not learn it and wish to, cease interpreting now! The lacking baby was, in fact, Ellen's followed son. He have been abducted 2 years past in a carjacking the place the nanny was once killed and the child was once by no means obvious again. What quite sucked concerning the entire sucky factor used to be that the organic mom had conspired with the kidnapper to take the kid for ransom. She had a few critical playing debts, and her husband used to be loaded yet it seems that she had promised him she

may quit. Kidnapper took the ransom, mom skimming sufficient from it to pay her debts, and he used to be alleged to go back the child. Which he didn't. It was once a tangled web, yet as heart-wrenching as a few of the scenes were, the finishing was once a long way too tidy for the sort of messy story.

Get to a estate market access ensure a report. For the position, the behalf will lease all example and area to your product on opportunity, and you may let that marketing.
