Description

WHITE-HOT, DOWN-AND-DIRTY PASSION IGNITES WHEN A SEXY SOLDIER ENCOUNTERS AN IRRESISTIBLE THIEF WHO'S CHANGED HER WAYS.

Six years ago, the Special Defense Force mourned the loss of J. T. Chronopolous. Now the striking soldier is back with scant memory, a new name—Conroy Farrel—and one single mission: to bring down SDF. But SDF has its own plan: get him back at any cost. And so they've set a trap for Con, a trap that Jane Linden accidentally steps into. With darkness falling and the night heating up, Con finds himself on the run in an oddly familiar 1967 Pontiac GTO with a drop-dead-gorgeous brunette named Jane by his side. Who she is he doesn't know. Or does he? Jane certainly hasn't forgotten *him*. When she was a teenager, he caught her picking his pocket. Now the former street thief is all grown up and gone legit—and the effect she has on Con is all too clear: pure, sweet longing. Con's not sure if Jane is there to save him or to take him down. But one thing's certain: With desire leading the way, all bets are off.

Insightful reviews

Willow: So, for readers of this series this is *the* book. This is Conroy's book. And we all know who Conroy *really* is. You thought Zach was the lost chop shop boy? Well, then Con is the resurrected chop shop boy.

Literally.

[\(view spoiler\)](#)

So ALL of that being said. This is the end, or so i've heard. And we're going out like we went into this thing. With tires smoking, engines growling, and some seriously sexy romance.

Anita: As the 11th book in this series, Loose Ends lives up to it's name and does indeed tie up a lot of loose ends for this series. I am very sad that this is the last book. I truly hope that Tara Janzen decides to write another. But, if not another Steele Street, I really want her to write more. Very few authors can take a set of characters, a place like Steele Street and make them live. You really need to reed all the books and don't skip any. The whole of the series is a world unto itself. It is a wonderful world filled with warriors and the women who love them, hot muscle cars and even hotter sex. Tara Janzen pulls out all the stops and puts to pedal to the metal in this one.

J. T. Chronooplous was killed in the first book [Crazy Hot](#) . He was an original chop shop boy, a street gang that stole cars and was busted and set straight by the military. J.T. was on a mission when he was snatched and it was made to look like he was killed. He has been chemically enhanced, tortured and lost his memory, yet somehow he has retained his core goodness and survived when others didn't. In the last book [Breaking Loose](#) the Steele Street gang grabbed Scout, the daughter of a warrior who didn't survive, in order to lure J.T. to Denver to try and

capture him to help him. The plan worked and while in Denver J.T. and Jane Linden cross paths and J.T. has a flash of her. He has no idea why, but a lot about Denver is familiar too. When J.T. and his partner, Jack, take Scout from Steele Street, J.T. grabs a car which has Jane in it. They set off and have a wild adventure of a night filled with danger, and they rekindle their long ago love. There are others besides the SDF boys and girls who want J.T. which puts both J.T. and Jane and the SDF gang in danger too.

Amelia-Irene: This is the fifth book in the Steele Street series. I actually won this book, and I'm glad that I did, because I most likely wouldn't have picked it up otherwise. Someone high up in the military has been "selling" some of our soldiers to be experimented on and the Steele Street crew are trying to pull one of their own back into their fold after this happened to him. Unfortunately, the best laid plans never are straight forward and so it happens in this book. It keeps you on edge enough that you don't want to put it down. Fortunately, it's written in such a way that even though they refer to something that has happened in a previous book, it is not really leaving you hanging on that - but now I want to find the previous books in the series to read.

marieno: should you learn this publication as a closure to the Steele highway series, you are in for an incredible disappointment. there isn't any closure, no longer that a lot information regarding what occurred to J.T. and if you are hoping for a very good mammoth reunion among the chop-shop boys you greater overlook it. but when you learn the tale as one other of the chop-shop boys episode, you are gonna benefit from the ride. I hated Jane in e-book four yet with no her rats, she used to be a good improvment. i like the flash-back among Jane and J.T. Scout and her "pirate" characters have been an exceptional addition to the story.

Natalie: Love it! an ideal finishing to an exceptional series! i admire how everyone seems to be involved. My in basic terms query is, "Where are the wives?" If everyone seems to be home, the place are Cody, Katya, and the others? I would've been proud of a unmarried sentence announcing they have been stashed somewhere, yet nothing! Oh well, the remainder of the ebook used to be fascinating adequate to maintain my attention. i am not too certain approximately Jane being the woman for JT as a result of age difference, but when thats what Tara selected then i am cool with that. i'm hoping she maintains writing. I definitely are looking to learn extra from her.

Sara: After ready see you later for this publication I gotta say, it was once missing a bit something. Ever due to the fact that i began examining the Steele road series, i used to be hoping that J.T wasn't quite useless and it did not set in that he used to be until eventually child bought his body. Even then, i used to be skeptical. but, I gotta admit that i learn free and straightforward first and that i kinda bought a glimpse on the men considering J.T was once nonetheless in the market somewhere, even supposing i did not particularly get it on the time. This booklet used to be simply as fast moving and action-packed because the remainder of Tara Janzen's books. and how all of it got here jointly used to be beautiful perfect. (view spoiler)[although, i am not partial to torture and how the Steele highway men used that strategy to extract details used to be no longer whatever that I enjoyed. Dylan used to curse Dr. Souk for injecting him with all these medicines and he cavalierly did an analogous factor to the folk he captured. It made the Steele road men look a bit too immense for me and that i needed to

speedy learn these components in order that i did not hate them an excessive amount of more. & the intercourse was once definately missing during this book. not anything occurred among J.T. and Jane till the tip of the book. And, given their whereabouts through the book, i will not often give some thought to a state of affairs the place they could've simply stopped and had sex, yet that common sense by no means stopped Tara Janzen in any of her different books. & i used to be a bit disillusioned that J.T. did not take into account extra of his life, yet that isn't relatively anything i will change. (hide spoiler)]Overall, an excellent learn and a becoming end to the series. ["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>
