Description

Unlike most kittens, Martin doesn't like eating mice - let alone catching them. When he catches one by mistake he decides to keep it as a pet and soon Drusilla the mouse is established in an old bath tub in the attic. Martin is kept busy getting food, water, bedding - and then Drusilla's babies start to arrive. How can Martin cope with all his mice?

Insightful reviews

Jesse Boucher: I absolutely loved this book. The complete turning on it's head the notion that Martin (a kitten) should be a ruthless mouser. Dick King-Smith's book follows the adventures of Martin, who decides to start keeping petting mice. But he has to keep this secret from his mother and his siblings, who will be very unimpressed and will likely kill the mice. Martin is incredibly naive and seeks advice from the other farm yard animals on how to feed them but, it turns out, the other animals are equally ignorant. For older readers, the section where Drusilla, the mother of the mice complains at being kept captive as a pet, may lead to a wider discussion or possibly a balanced argument exercise on the keeping of pets or animals in captivity.

I think this book would work particularly well with younger children and there is lots of scope for class based drama and reading activities in particular. I think you could also perform an activity where various characters are 'interviewed' to find out and imagine what they may feel about the events in the book. Creative writing tasks could also include writing a short passage from the view of one of the other animals. For younger readers, there is plenty of scope for class discussion about what characters may be thinking or feeling.

Sophie: When I read this book I was in the 4th/5th grade. To be honest, no I haven't re-read this since. And the main reason why I wouldn't is because it might ruin my childhood impression and my experience. I'm afraid to ruin that childhood memory by re-reading this with a judgmental adult mind. So this review will have to be from my memory of how I liked it way back then.

I'm rating this 5/5, and that's because to me it was a 5/5 back then. This was the book that changed my life. Crazy, but true. I hated reading back then. Because of my background and not being born in the US, English did not come easy at first. It was hard and horrible. I hated reading for what seemed like a long while. Until after this book that is. I don't know what it was but this book made me fall in love with reading, and pretty much the rest was history. I've been a major book worm (or more accurately book addict) since.

I also remember this book making me cry back then. This could be very well why it left such a deep impression. There was just something so touching about the relationship between Martin and his mice. There was a very real and tangible relationship between the characters, and the portrayal of the human condition simply grabbed that troubled illiterate child that I was back then.

And so to me, this book will always be amazing.

Gabby: One of the funnies and most light-hearted books I have ever read. Any book that correctly depicts cats and their lives is a win in my world. I recommend this book to any animal and cat person alike. :):)

Andrew Foster: Grade Level: third to 5th This ebook was once really easy learn and had many illustrations. It follows a farm cat that doesn't are looking to hunt mice yet retain them as pets, like people hold pets. This ebook brings that cattle to lifestyles and gives a different viewpoint of what an animal may believe like being a pet, particularly from the pets element of view. The tale is predicated seriously on personification to inform the entire story. utilizing this e-book to educate and discover personification to young ones will be a good fir. In addition, this is able to additionally enable scholars to exploit this e-book as a serious considering workout within the function in the back of holding a pet. it could possibly permit young children to appreciate how pets "feel", although we don't truly know the way they feel. This e-book may permit for a great deal of exploration in personification and the "feelings" of animals.

Ulyssaf: This publication is ready a cat referred to as Martin. he's a cat, yet he does not wish to devour mice, he loves to continue them as pets. One day, his key is found. what's he going to do? My favorite personality is Pug, Martin's dad. i admire him simply because he does not do stuff that makes his son unhappy, yet he is helping his son out of the matter he's having. i might suggest this ebook to those who wish to examine animals and the way they pass on with their lives.
