Description

The power of heart and soul holds the key to the survival of the last of the ancient vampires. Kristair is running out of time. His race has faded away, prey to delusion and deterioration, and his only chance to live long enough to find a cure is to bind his psyche to a human vessel in a long forgotten ritual.

Kristair's chosen vessel is Jacob Corvin, a man of passionate stubbornness and fierce loyalty; he has captured Kristair's fantasies so completely that he is both the vampire's greatest strength and most crippling weakness. Drawing upon Jacob's spirit and Kristair's resolve, they each bind a portion of their souls to one other. For as long as Jacob carries Kristair's heart within him, the vampire can continue his quest.

Just when they have hope, their mission is threatened by The Syndicate, a group of younger vampires who attempt to force Kristair to teach them his secrets before he disappears like the rest of the ancients. Battling both The Syndicate's attacks and his unexpected need and love for Jacob, Kristair's strength begins to fade, forcing him to make a decision that will change his and Jacob's lives forever.

Volume 1 of the Triquetra

Insightful reviews

YullSanna: ?????? ?????????????? ???????? ?? ?????????????? ??????????...

Ms. Nikki: A great read for vampire fans. I loved the dominant side of Jacob (he gets country-fied when he's hot or angry) and the possessiveness the pair shared towards one another. The passion these two felt for each other made me wish I was a fly on the wall. At times Jacob's roommates were bothersome and in all actuality seemed to hinder the story rather than add substance to it(until the end). This would have easily been a 5 star read, but I felt that the "peaks" of the story never quite reached the height for true, heart-pounding excitement, although Jacob's anger problem made me think "it's on now," he would quickly "get over it" when in the presence of his lover Kristair. There is a REALLY sexy part in the book where Kristair acts out one of Jacob's highly erotic fantasies! That scene alone was worth the read. And no, I'm not going to tell you, you have to read it.

Jason Bradley: Where to start? I enjoy when an author adds their own imagination to the vampire myth, putting their own spin on it, so to speak. Marguerite did this winningly!

What kept this from being a 5 star read were some issues I had with Jacob. He was instantly in love, which I would have attributed to Kristair's allure except that Kristair didn't appear to expect it. Also on their second night together, Jacob wondered if the vampire would ever cease to surprise him, like they had known each other for a lifetime. I would have liked to see more of a

building in the relationship than an instant one.

Also, Jacob seemed to accept things that were incredible with ease, like having a vampire stalker. But then other things that seemed much easier to accept were cause for panic. His character's personality confused me most of the time.

With these things said, they detracted only a small amount from an otherwise brilliant story. Marguerite kept from offering a cookie-cutter plot with easy resolution. The world she created was interesting and made the reader wish to know more. Thank god, the series continues! :)

Carolyn88: it is a nice read. it isn't like all different m/m publication that i've got read. it truly is extra just like the fable books that I read. The characters love affair is second within the tale line. i actually could recommend this to anyone. There are 3 books that must be learn on the similar time. it's going to retain your attention.

Purplegirl : this can be the type of vampire tale that i've been taking a look for. there have been many stuff that I loved approximately this book. I loved the particularly DEEP connection that Kristair and Jacob had, the several twist at the vampire global that writer portrayed, the plot and secret surrounding Kristair's declining overall healthiness all made this an outstanding read. It was once darkish and serious. i'm frequently a quick reader yet this publication had me taking my time to learn slower and confirm i used to be taking every little thing in. The finishing used to be becoming for the tale yet I do see there's a few extra books within the series. Definitely a five celebrity learn for this genre.

Rhianon: Or, "tá mo chroí istigh ionat." Which additionally translates, relatively literally, to "I love you." Take an historic Gaelic warrior. Make him immortal and toss him into modern day Pittsburgh, tangle him up with the college's superstar working back. At turns funny and heart-wrenching, this primary within the Triquetra trilogy is a superbly written story of a whirlwind romance with a quickly tragic ending. Labbe does a poignantly faultless task of depicting the characters, their feelings and relationships, their loyalties and flaws, and this outcome is a powerfully action-packed tale that does not trouble letting up. If you get pleasure from homosexual vamps, this is often certainly a must-read. palms down.
