## Description

**Outer Dark** is a novel at once fabular and starkly evocative, set in an unspecified place in Appalachia, sometime around the turn of the century. A woman bears her brother's child, a boy; he leaves the baby in the woods and tells her he died of natural causes. Discovering her brother's lie, she sets forth alone to find her son. Both brother and sister wander separately through a countryside being scourged by three terrifying and elusive strangers, headlong toward an eerie, apocalyptic resolution.

## Insightful reviews

Kathrin Passig: Wie schwer es wohl wäre, einen Cormac-McCarthy-Bot zu schreiben? Auf staubigen Straßen umhertaumelnde Gestalten, Mord und Totschlag, ein Scrabblewörterbuch, fertig ist die GESCHICHTE VON BIBLISCHER WUCHT UND ANTIKER UNENTRINNBARKEIT, die APOKALYPSE IM WILDEN WESTEN.

AmberBug \*shelfnotes.com\*: I enjoyed the book but it didn't "WOW" me. It didn't throw me into the world or give me any emotional turmoil over the characters. Overall it is nicely written but nothing special. The mystery wasn't very suspenseful. I felt disconnected from the characters. When an emotional event occurred, I didn't feel the appropriate pang of sadness or the ping of joy. The writing is done well and the descriptions are done beautifully but the story is lacking a connectivity that brings you close to the characters of the book.

The dark themes and characters ARE disturbing, shocking and chilling but because I felt disjointed from the main characters and the world, it didn't have as profound an effect that it should have had. McCarthy had a great idea, great writing and style but didn't execute the plot or the characters very well. If this is your first McCarthy book, be warned.

Mary: *What's a Jew?*

*One of them old-timey people from in the bible.*

This was as bleak and foreboding as each McCarthy novel I've read so far. Perhaps made all the more enjoyable as I just returned from visiting a very "Child of God like" part of Tennessee. Almost put me off BBQ meat, though...

Kirk Smith: Absolute excitement to read. Inventive perfection. The e-book and the writer are classics!

Mike Puma: \*\*\*The following review, akin to it is, can be thought of spoilerish. Proceeding carefully via my long-awaited, chronological rereading of the works of Cormac McCarthy, interpreting the supplemental fabrics I've picked up over the years, and marveling at issues I hadn't spotted first time around. Isn't that why we reread anything? This one, as darkish and foreboding as whatever he's written, in different ways, turns out the telling of the Anti-

---

Nativity—not the start of the Anti-Christ, yet a delivery magnificently abhorrent, replete with familiar, even though inverted/contorted biblical photos useful of Dante or Bruegel. reflect on the 3 itinerant misfits who preside over the italicized sections—not the Magi, yet 3 evil personages whose presence coincides with the beginning of the child, whose presence is a torment to Culla, Rinthy, the unnamed child, the tinker, certainly every body they encounter—who arrive, no longer bearing presents yet spreading carnage; reflect on their unholy communion round the fireplace with Culla; reflect on their leader's uncanny resemblance to pass judgement on Holden (the personification of evil in Blood Meridian). To belabor the point: reflect on the pointless Sacrifice (is a human sacrifice ever necessary?). attempt to not compare/contrast the Slaughter of the Innocents writ small within the ultimate campfire scene. test to not compare/contrast the biblical photographs of shepherds tending flocks with pigs run amok whereas their drovers bathe blame at the blameless bystander. test to not contemplate the kid as one despatched to redeem the sins of the world, yet rather, as one that suffers the sins of the area nevertheless. OD is greater than biblical images, biblical language, poetry, and pacing, even if it's demanding not to realize or experience that biblical heft. a few readers may possibly come clear of OD feeling as if they've learn the an identical of the total outdated Testament. As an aside, I should still point out that my biblical reminiscences are dated—arising, as they did (biting my tongue here) from a interval after I a extraordinary pair of blue denims to a tent revival which ended in a Scandinavian extravaganza with the entire Gospel company Men's Fellowship International. It's tempting to bump up the superstar score on this, because it was once with The Orchard Keeper, yet except anything fairly startling occurs on those rereads I'm going to stay with my preliminary rating. during this case, perhaps bump it as much as 4.5 so i will be able to nonetheless distinguish it from No state for previous Men—but then, i'll like that one greater this time round as well. And now, sort women and reliable gentlemen, i will continue to the corresponding bankruptcy in interpreting the World: Cormac McCarthy's Tennessee interval within the desire of finally overcoming my beginner status on the earth of Cormac McCarthy studies; I know, I know, wishful thinking, yet great things come to those that ...wait, we're speaking McCarthy—good factor I'm now not certainly one of his protagonists.

Mark: A dry run for Blood Meridian. started out eventful enough, a tender girl pregnant from her brother's seed. And after that issues flip boring and quite often uneventful for the following a hundred and seventy pages. to not say that not anything in any respect happens, simply that those occasions appear like, So what? simply around after around of blah scenes. And then, on the 80% mark, issues kick into excessive apparatus and stay there for the remainder of the ride. One problem, I think, is the most characters by no means think thoroughly fleshed out. they are specters. Given McCarthy's plot it is semi-reasonable that the characters would seem as those hole figures, yet even as it does not make for spell binding reading. If the center part (ie. the majority of the book) had even 1 / 4 as a lot gusto because the starting and end, the spectral characters might were extra engrossing. because it is, if learn from the 80% mark on, this could make an excellent, 4.5 star, brief story.

As they do with a phone with store he are, you will then continue the amount along your team.
