Insightful reviews

Kathie: Great series

Pat Peters: Good ladies mystery book.

Peggy: This is a nice comfortable read. The story moves along at a good pace. It was nice not to have things drag about. I did not have the who did it figured out when she revealed it. The touch of scrapbooking and crafting was nice.

Karen: comfortable mysteries should not for me, and the earlier I observe that the fewer time, i'm going to spend with books that are not my style. Here are the largest mysteries within the book: How can Carmela find the money for a Scrapbooking store within the excessive lease French region whilst she does not even appear for paintings part the time? Why does she spend quite a bit time with stereotypical southern caricatures with names like Tandy, Quigg, Babe, JadeElla, Sweetmomma, Glory, and Ava. And why is she wandering round on a dark, wet evening in an outdated production plant via herself? Anyway, the recipes at the back of the ebook glance beautiful good, so I simply have to learn a cookbook rather than a secret subsequent time i am getting nostalgic approximately New Orleans. After all, there are many cookbooks to decide on from.

Lain: One challenge i have spotted with prolific, winning writers is it sort of feels like their editors take a break. nobody is catching the little blunders (and the large plot boo-boos) simply because they are not giving an analogous point of scrutiny they'd to a greener writer's work. and that's the case in "Photo Finished." i actually take pleasure in Carmela and her friends. yet listening to approximately her "tawny hair" a number of instances within the first few pages was once a bit annoying. And the completely inane issues she does within the identify of chasing down the assassin are only an excessive amount of (going to an deserted warehouse at night? messing round the useless man's store, unaccompanied??). And why within the heck did Bobby, the police's number-one suspect, drop in on Carmela? He says not anything of actual import, then drops out of sight as soon as again. It was once in simple terms a manner of furthering the plot that made totally no sense. a similar with the way in which Shamus is urging Carmela to wait "family" services while the total Meechum extended family -- together with Shamus himself -- has made it transparent that she's now not "one of them." One last item -- the yo-yoing with Shamus is getting old. And he's one of these cad (flirting with different girls in entrance of her, giving her a troublesome time approximately holding her corporation whilst she was once afraid, etc.), that if Carmela really will get including him, i'm performed with this series. Or may still I say, "photo finished" with it??

Babs: This booklet used to be okay there have been a few gradual spots throughout the book, yet total it was once reliable to read. I loved seeing extra characters and seeing the previous ones pop out more. i'm watching for ebook 3.
