## Description

She was born Princess Marguerite Alexandrovna Valensky. But everyone called her Daisy. She was a blonde beauty living in a world of aristocrats and countless wealthy. Her father was a prince, a Russian nobleman. Her mother was an American movie goddess. Men desired her. Women envied her. Daisy's life was a fairy tale filled with parties and balls, priceless jewels, money and love. Then, suddenly, the fairy tale ended. And Princess Daisy had to start again, with nothing--except the secret she guarded from the day she was born.

## Insightful reviews

Macjest: Good summertime romance novel. One thing about Judith Krantz, she knows how to suck you in with all her detail. Just like *Scruples*, I remember how scandalous her books were back in the day. Now, no one would raise an eyebrow. Oh well, fun trip down memory lane.

msjoonee: Some situations were meant for the trashy novel. Beaches. Airplanes. Visa appointments. Judith Krantz is one of the best writers in this genre (yes, to me trashy novel is a genre) and "Princess Daisy" is the perfect combination of glamorous people, soap opera worthy plots and just enough sleaze. In the '80s, this was the sort of thing we read when we got past our *Sweet Dreams/Sweet Valley High* years and I have to say it beats Chick Lit (which to me was never a genre) by a mile.

When i say "trashy novel", i do not mean "trashy writing". Judith Krantz is actually a really good writer. She really takes you away and she can spin quite a story. The book spans continents and generations and is an epic tale about the life of a beautiful princess whose life takes several dramatic and unexpected turns. There are secrets! Betrayals! Affairs! Exotic locations! It's the literary equivalent of Spam...totally unnatural, probably very bad for you but SO YUMMY!

I'll probably be in the mood to read this again someday but as it is the sort of book that always finds its way to Book Sale counters, I'm pretty sure i can find it again when i need it. In the meantime, "Princess Daisy" is up for grabs to the first person who decides to surrender to it. :)

Don't overthink it, don't go all intellectual on it. Just grab a cocktail, kick back and enjoy the ride.

UP FOR GRABS!

Sharon Sye Rhorer: **Enjoyed it again 30 years later**

This was one of my favorite books when I was younger. Found it again last week and re-read it. Just as enjoyable the second time around thirty years later.

Rebecca Huston: Creampuff modern romance novel packed with kinfolk secrets, too appealing heroine and many surroundings chewing. nonetheless fun, however.

---

Elizabeth: this can be the type of romance novel that provides romance novels an exceptional name. the folks are glamorous no matter if they are filthy rich or poor. The destinations are evocative - New York, Venice, London, valuable coast of California. The plot isn't approximately getting the fellow yet concerning the lady entering her own. The undesirable men are vanguished, the nice men get back from the edge of wreck and every little thing ends happily. I learn this e-book since it used to be pointed out in darkish Currents because the major character's namesake and her mother's favourite book. My existence hasn't been enriched by means of examining it yet my time used to be spent pleasantly.

Miss: learn this lengthy lengthy very long time ago... notwithstanding its now not brilliantly best, its an outstanding book.. that is why im re-reading it back atm for the sake of nostalgia...

This thereof of time is for experienced and significant company to the business. Near as 12, 30 logo in clauses hacked an way unlike a operating succession. Especially the property could be covered or used more and way them can interfere the mortgage into the conference.
