## Insightful reviews

Mersal: "Stormbreaker", by Anthony Horowitz, is a 192 page graphic novel on one of the books in the Alex Rider series. Alex Rider's uncle is a British spy who unfortunately dies on the job. Alex, who was not aware of his uncle's profession until after his death, is approached by the company his uncle was working for and recruited. Just like his uncle Alex is a great spy and perfect for the job. After his brief training Alex's task is to stop a man from launching a computer program that will infect all students in the U.K. with a virus. After several obstacles Alex finally is able to stop him and saves the day. I thoroughly enjoyed reading this novel because of the suspenseful story plot and wonderful animations. The pictures added to the excitement of the tension-filled scenes as you could visualize what was happening. I personally love stories with spies and a lot of action and this novel gave me exactly what I wanted. It was an enjoyable read and I would recommend that anyone who has not read a graphic novel start with this one.

Kate Babbitt: Stormbreaker is also a popular book from my 5th grade class, recommended by my teacher. It is about 14 year old Alex whose uncle has been murdered. He is sucked into the life he never knew his uncle had where he was undercover. He goes into training and has his own mission to complete his uncle's last mission that he never finished. This is an action packed book that keeps the students guessing. This could be a book that they could read on their own but could also be a book that the teacher reads to the students in parts each day. It could be a leisure break book but also one up for discussion in guessing what happens next or if Alex is going to be able to fulfill his mission and how. Books that keep the students wanting you to read more are great in engaging them and keeping up their comprehension skills.

Gray .K: If you love suspense this is the book for you. I Love it and this book was awesome same goes with point blank. These graphic novels are well done in my opinion and I think that it is easy for anyone to get hook on the book. Suspense, action and spies. What more could you ask for in a graphic novel.

Hence, this used to be correct up my ally. the most character's uncle is a mystery agent, even if he does not allow something slip to his nephew. They reside jointly however the uncle isn't around. he is constantly at a few type of "business meeting". but if his uncle turns up dead, and a slew of individuals attempt to get involved with him, the nature finally is ended in a undercover agent base, the place he's recruited for his specified abilities.
