Insightful reviews

Terry Cornell: Excellent chronicle of Jack London's exploits on his sail of the Pacific aboard the Snark. His descriptive writing makes you feel like part of his crew. My only complaint is that it ended too soon!

Nik: London's use of language is really beautiful. I didn't expect that so much. The book was so contemporary sounding, it really stands up to the test of time. There was humor and adventure. As far as sailing and travel books go this was an excellent read.

Brian: Very interesting and humorous South Seas trip.

Bob: Librivox Audio - real tale approximately how Jack builds his personal boat and sails years round the Pacific. hugely dramatized -- description of savages, yet might have been simply as he wrote. for example his account of the lepers of Molaki was once as i have examine elsewhere. nonetheless i have written my very own trip logs and this one wasn't far better than mine.

Stuart: an exceptional ripping true-life yarn, and a superb better half piece to the fictitious (and hugely awesome) South Sea Tales.

Stephen Gagin: This booklet is a testimony to Jack London's marriage. They employed an organization to construct their boat to allow them to sail round the world. with regards to every little thing broke on their Pacific crossing and the way they coped with it. it is a solid read.
