Insightful reviews

Katherine: Not as good or as funny as Wilt or Porterhouse Blue. Still, it's well written and it does compel you to continue reading.

James: Not a book to be read in public! Very lol.

Tina Lamb: Tom Sharpe has done it again. My life was once again suspended whilst I wallowed in the gossip fodder of his characters. He has the knack of introducing characters with no palpable attributes and telling you about their plights with no clue about whether this means they are about to get their just desserts or continue to outwit karma. Maybe it's just me. But I swear I have met most of his characters or their soul mates. And his rendition of their thought processes only seems to confirm the fact. It's a fun read with wonderful characters spilling onto the pages. I believe the modern world would call it dark comedy. When I die, they'll find a complete library of Tom Sharpe in my bookcase. I recommend you give this book a try.

Raphael Paulian: a few rather hilarious passages.

Beth Byers: no longer nearly as good or fascinating as his different books.

Karen Marshall: okay
