Description

A new edition of our classic, *The Other Bible*, including a new index, new cover, and a new introduction from the author to bring *The Other Bible* up to date.

The Other Bible gathers in one comprehensive volume ancient, esoteric holy texts from Judeo-Christian tradition that were excluded from the official canon of the Old and New Testaments, including the Gnostic Gospels, the Dead Sea Scrolls, the Kabbalah, and several more. *The Other Bible* provides a rare opportunity to discover the poetic and narrative riches of this long-suppressed literature and experience firsthand its visionary discourses on the nature of God, humanity, the spiritual life, the world around us, and infinite worlds beyond this one.

This new edition will include a full index and a new introduction from editor Willis Barnstone.

o The interest in Gnostic texts begun with *The Da Vinci Code* has spread to include many of the other "suppressed" early texts of Judaism and Christianity, and this book contains many of them in one volume.

Insightful reviews

Craig J.: *The Other Bible* by Willis Barnstone (2005)

Dalewoodruff: If you've ever wondered what the books left out of the bible were like, this is a GREAT opportunity to read samples of those texts! Includes the gospels of Thomas and Peter and many other gnostic texts.

Michel Tietie: This book changed not only my personal views on religion, especially those of the Christian doctrine, but also my view of the world as a whole! Who knew that the only thing I need to pull me out of the darkness was a good book! Of course, one can't very well read inside a cave now can one.

Steve: learn the weirdly amazing stories that did not make it into canon. worthy it for Thunder ideal Mind, alone.

Kyle Muntz: An immense, quite wealthy number of noncanonical Jewish and Christian writings, with unique specialize in the Gnostics and their suggestion of an evil author God, "an abortion of darkness". This publication had me pondering much concerning the concept of divinity (the "god feeling") as a poetics/cosmology of the sublime; of myth as a way for people to grapple with an incomprehensible universe, and the facility that has in the context of fiction. I simply wrote a far longer review, yet i believe i'll be increasing it right into a put up for Entropy, so hold your eyes open!(Also, it is tricky to learn this with no taking into account the quite robust function fanfiction has had at the improvement of culture, which is not what i will write approximately yet a brilliant wealthy check out the heritage of writing and the way rules are formed.)

Daniel: rather attention-grabbing interpreting of extra scripture texts which were stumbled on - in

particular the books of Enoch and of Adam. those texts have been approved as valid texts again in Jesus' time and soon there after, yet have been later culled from the holy books and destroyed the place possible. This in general is not page-turner reading, notwithstanding it really is in places. Even so, it is a nice source and value checking out.
