Description

An innocent American girl becomes a bewildered pawn in a game of vengeance and betrayal.

Insightful reviews

Heena P.: Brilliant read. Completely astonishing and mind-blowing! I love all of Sidney Sheldon's book and this one's a favourite. An amazing story of beautiful and powerfully wealthy people. Loved the end and absolutely loved the part of Constantin Demeris. Absolutely engaging.

This book is all about Noel. A beautiful young girl who was sexually exploited in her childhood by her father and later sold to a guy who also exploited her sexually. Finally she runs away and then meets Larry Douglas, our hero. He breaks her trust and leaves her pregnant with his child (but he actually didn't know about it). That's where the main story begins. Noel kills his child and starts her journey to destroy Larry's life and have her revenge. But situations take unexpected turn and that's the twist you really want to read the book for!

I will recommend it to everyone as it has almost all the elements a novel can have, true love, hate, betrayal, revenge, justice and more.

Tammy Walton Grant: Yet another book that I read when I was probably too young to do so! I remember reading this one while I was sick in bed with the mumps as a kid. It was my mom's book - and I stole it from her bedside table. I was quite titillating to me at the time -- SEX!!!! but I don't really remember much about it except a character named Larry and the main character got screwed over HUGE. Maybe I should re-read this one - and shelf it as "cheesy 70s potboilers".

A.Z. Green: This book was absolutely brilliant.

It's the first Sidney Sheldon book I read, handed down to me by my mum. Though this probably wouldn't be something I'd choose from a pile of books initially, but because it was recommended to me I gave it a go. And the blurb did sound intriguing but it didn't do the book justice. It certainly didn't prepare me for what I got.

Noelle and Catherine, the two main female characters were very different and yet very similar too. They both love the same man, Larry Douglas, though for the life of me I couldn't see why. Sure if I saw him I'd probably be drooling too but his personality can only be defined in these words, 'arrogant, selfish, womanizing jerk.' And then some.

He's a charmer that's for sure and at times he has his 'good guy' moments but seriously ladies, he's NOT worth it.

Noelle was an interesting character but I found reading her parts uncomfortable at times, because I couldn't imagine how someone could do some of the things she did. ([view spoiler](#)) And just out of curiosity, was it me or was the moment she found out Larry had betrayed her a little puzzling? I had to read it a few times to work out what the huge discovery had been. He'd

gone to a club, instead of meet her. It sounds bad, but not THAT bad ([view spoiler](#)) And yet she has a good heart too. She helps Israel Katz. I liked her a lot then and began to sympathize with her a little more, until she and Larry met up and began plotting their evil scheme. And then I sympathized with her again at the end.

Catherine is my kind of girl. Sure she messes up, but she's funny and cracks jokes to cover up her errors and embarrassment. Her clumsiness is cute and she's quite graceful about it. Plus she has confidence issues (like Noelle, but different) which Sidney (Who I had at first thought was a female author) portrayed beautifully. Especially for a man writing about every woman's lack of self-confidence whether to do with their body like Catherine, or sense of worth like Noelle.

Catherine made me laugh a lot, especially when she finally gets the chance to lose the big V and has a severe case of thought-to-mouth-vomit. Love her! And I found myself much closer to her than anyone else throughout the book. I like her fella too.

The plot was well thought out, even though it had a lot in it, I couldn't put it down. It was informative but not longwinded. When it was fast paced it didn't draw it away from the emotions and the plot, when it was slow paced it merely increased the suspense and the urge to know more.

After reading only one book Sheldon is the Man, to me anyway. I will continue to give his books a chance even if they don't match up to this one. It'll be pretty hard to do that so I won't blame him if he doesn't. :D

5 out of 5 stars for me. And I'm looking forward to reading the sequel. I hope it isn't one of those series that makes me think he should have kept it as one book. We shall see. ["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>["br"]>

Darlyn: Heart-gripping yet completely wicked. I learn this ebook whilst i used to be in highschool and enjoyed so very much. yet that point it used to be borrowed and now I acquired my very own own copy. As this is often my moment learn of the book, i used to be particularly joyful i believe a similar means I felt the 1st time I learn it. Even a lot better. It has bought to be the main suspenseful e-book the place you don't see the twist until eventually on the very end. it's a extraordinary twist! The storyline used to be completely impressive and he had this sort of masterful mind. And the ebook is completely a masterpiece. There are 3 component of story; love, revenge and jealousy. It has different parts yet those 3 is the largest elements of contribution within the book. I by no means learn a personality like Constantin. he's a guy that by no means forgives and he carry his grudge like forever. I even suppose fearful every time I learn his half or part of story. you have to learn how he won his wealth, completely manipulative and yet remarkable for a scoundrel. Larry is a personality that I despise most. he is a center breaker and if he stored his promise to Noelle every little thing will be a cheerful ending. I felt sorry for Noelle yet what she did to win Larry again is such unforgivable and that i imagine Larry and Noelle deserve for what they committed. while they discovered guilty, and the plead the guilty, well i have not proposal what monster Constantin was. It used to be completely really unfair and that i do not see it coming. What i'll say is, he used/involved his energy and wealth to cause them to carried out through a firing squad! They deserved the punishment even

supposing it really is suggest and inhumane and Constantin received in silence. Catherine, Larry's spouse at the different hand, misplaced her reminiscence and approximately died. She is the sorriest personality and that i felt so indignant in terms of the ending. But, it was once a truly marvelous read.

VaultOfBooks: through Sidney Sheldon. Grade: A Sidney Sheldon is without doubt one of the such a lot prolific writers of all time. within the literary circles, he has been dubbed "the grasp of the unexpected"•. From writing novels to screenplays to television scripts, Sidney Sheldon has performed it all. the opposite part of dead night is the second one novel of his career, the 1st being The bare Face. The tale follows a gorgeous French actress whose yearning for ardour and vengeance takes her from the gutters of Paris to the bed room of a strong billionaire; a dynamic Greek mogul who by no means forgets an insult, by no means forgives an injury; and a good-looking struggle hero lured from his spouse through one other woman. From Paris to Washington, Hollywood to the islands of Greece, the opposite aspect of nighttime is the tale of 4 star-crossed lives enmeshed in a dangerous ritual of passion, intrigue and corruption. The plot primarily revolves round women: Noelle web page and Catherine Alexander. Noelle Page, born in a small French town, is a tender lady of unheard of beauty. Her existence used to be a dream, a doting father, a loving family, an awestruck village, till the Nazis invaded their country. Ever seeing that then her existence has been going downhill. She was once pressured into the palms (bed, rather) of the village's richest man. yet she runs away to Paris the place she is rescued via an American stranger once you have into trouble. She falls in love with this American battle hero, Larry Douglas and is set to marry him whilst she unearths out that that the affection of her existence is a Casanova (that is an understatement) and that he had ditched her. it really is at this aspect of time that she swears vengeance opposed to the single guy who had ruined her existence and left her in shambles. On the opposite hand, Catherine Alexander, born in Chicago within the family members of a traveling salesman, had a lesser bothered life. once she entered into college, an apprehension started to plague her which might form the process her life. as soon as graduated (and nonetheless fearing an analogous thing), she entered right into a task in Washington D.C. the place she came upon her first romance (who grew to become out to be her lifelong friend). After rather a few time, she ran into an arrogant, pestering, stressful guy known as Larry Douglas (yes, an identical one). They either fall in love and get married. Meanwhile, Noelle Page's vengeance leads her to a French director, whose organization is helping her turn into an actress. From the bylanes of France, she had now come into the spotlight, into the eyes of each unmarried individual in France and all around the world. but if she learns concerning the new advancements in Larry Douglas' life, she renews her efforts and hence, lands into (yes, the bed) of Constantin Demiris, the ruthless but benevolent Greek multi-millionaire who had outmanoeuvred each enemy who had at any aspect of his life, insulted him. (During this period, it really is Catherine who's ache as Larry is stuck up within the moment global War.) Because of the planned situations created through Noelle, Larry finally ends up operating for Demiris and either Catherine and Larry flow to Greece. As deliberate by way of Noelle, this is often the final nail within the coffin of Larry Douglas as he has now walked into her clutches. What occurs on the finish of Noelle's vengeful trip is how the plot ends. Had there been an ethical of the story, it can were "hell hath no fury like a lady scorned"•. The sheer monstrosity of the hatred that Noelle holds for Larry in her middle is what drives her to the lengths the world over and Catherine, most likely the one blameless determine within the novel, is stuck up in this. Sidney Sheldon, within the different part of Midnight, offers a glimpse of the

darkish facet of a woman's center and desires. the unconventional is absolutely fast moving and the easiest half is how the timeline is positioned to take advantage of (believe it or not, the second one global warfare performs a crucial function within the novel). The writing is especially gripping and retains the reader at the fringe of the seat. one other first-class instance of ways likely small error in judgement could have severe consequences. A must-read for everybody who's drawn to fiction. Originally reviewed at www.vaultofbooks.com

Gwilym: A mystery of romantic and private politics. Sidney Sheldon used to be a real grasp of the web page turner, and this 3 method thread isn't any exception. The parallel lives of 2 ladies residing via a troublesome knocks university are either became dream worlds through the enigmatic womaniser, Larry Douglas. The feckless social judgment of right and wrong isn't really adequate to extinguish the burning wish either ladies think for Douglas and their involvement with him is a rollercoaster of feelings with extraordinary peaks and terrifying darkish troughs. Sheldon brings jointly the myriad of outlying characters for you to force the narrative ahead - even the cliches and predictabilities of the protagonists is forgotten as we're swept up within the speed and effort of his writing. definitely there are not any asides to think about or create marvelous photos for us the reader, however the imagery hired is there for symbolism and atmosphere the scenes for irony, tragedy, and cynicism. maybe the piecing jointly of 3 probably disparate tales is overlong at times, and the prologue is a flood of information. Nonetheless, we're transported via excessive celebrity, politics, and the human feelings that force them similar to the other Sheldon novel, and it is enjoyable to be on for the ride. prompt as a web page turner to entertain - a welcome holiday from extra excessive and powerful literature.
