Description

"Try to do as little as possible." This was Dodsworth's motto. One morning, on his daily trip to the junkyard, he discovers a pink refrigerator.

There's not much to say about a pink refrigerator, except this one had a note on it. The note said, "Paint pictures." And so Dodsworth did.

The next day, a new note appeared on the pink refrigerator. And the day after that, and the day after that.

Dodsworth liked doing as little as possible. But the pink refrigerator had big plans for him . . .

Insightful reviews

Hannah Guerra: This inspirational picture book is good for kids in Pre School through 1st grade. It follows Dodsworth, a thrift shop owner who loved nothing more than doing absolutely nothing. One day, on one of his regular trips to the junk yard to find things to sell, he spotted a pink refrigerator. The refrigerator had a note that said "make pictures" and was filled with painting materials. Dodsworth took the supplies home meaning sell them in his store, but he end up painting instead. The next day it contained books and a note saying "read more," then a trumpet and "play music," and then ingredients and a cookbook and "learn to cook." Dodsworth was discovering so many new gifts and talents and loving that he was finally doing stuff. The last day the refrigerator was empty and just said "keep exploring." Dodsworth was angry at first, but finally realized that he needed to get out of his house and continue doing stuff. It ends with him packing his stuff up and riding away on an adventure. This book has themes of trying new things and not being lazy.

Amy: My husband, my four year old, and i all LOVE this book with it's mystery, quirks, and important message to explore the world around you

Lisa Vegan: This quirky picture book reminded me just slightly (in a positive way) of one of my favorite books, [The Phantom Tollbooth](#). It's a very unusual book too.

A man living a sedentary and hum drum life gets some inspiration from a pink refrigerator. I'd have enjoyed this as a child too, but this is one of those picture books that might be an appropriate gift for an adult about to begin a new endeavor. I think one reason I enjoyed it so much is that all the new activities the man engages in are ones I found appealing and also that I found the man likeable, even when he wasn't living as fully as would be ideal.

The illustrations fit the book very well so I enjoyed them, even though the style is such I might not have been a fan of them without the context of the story.

I enjoyed this enough that I will definitely seek out other books by this author-illustrator. In the

inside back cover of this (2007) book, 4 of his other books are mentioned.

This might be a good book, along with [Patricia Polacco's Aunt Chip and the Great Triple Creek Dam Affair](#), for kids who are too glued to their television (or video screen) sets.

Esther May: i'm encouraged by means of this story. the most personality had an outstanding life, simply didn't placed an excessive amount of attempt into anything. It used to be a superb reminder to me to work out what can ensue if you do things. Very lovely and clever.

The Library Lady: jogs my memory of a few of my favourite Daniel Pinkwater books in that there's a message yet but a story. Dodsworth is as uninteresting as his identify until eventually a chain of messages on a red refrigerator within the junkyard inspire him to aim factor he hasn't ever performed before. great instance of an image e-book that isn't meant for tiny twos--this will be a very good selection for early college age little ones or even older young ones within the classroom.

Shirley Ho: this isn't just for young children yet for adults as well. occasionally we're so cozy in our traditional manner and we overlook how intriguing it truly is to be exploring and making an attempt anything new. whereas i urge my teenagers to maintain exploring, this ebook jogs my memory to do the same. it's a incredible booklet with a transparent message.
