Description

Large Format for easy reading. Works from the well known British author and poet and creator of 'The Jungle Book'

Insightful reviews

Katie: I thought this was an excellent sequel...Mowgli very much comes of age. I loved the vignette where they save his parents from the angry villagers.

Sonia: Not your Disney Mowgli, much more savage as you would expect of a boy raised by wolves. Didn't care much for the extra stories included in these two books (about seals and Eskimos) which were so out of place and distracting from the jungle stories. These Jungle Books are worth reading just because they are so unique. Great voice actor - Patrick Tull.

Russell: The overarching story is the transition of Mowgli from a teenager, a Lost Boy to borrow from Barrie, to beginning of what it means to be a man.

Kipling's prose is pure magic. Even though they are of the Jungle, woven together with the Jungle, the lessons of the stories are timeless.

The stories set outside of Mowgli and his Jungle delighted me as much as Mowgli's. Of course, the core is centered around Mowgli. The last two stories are bittersweet, for they are about endings and changes. All the characters from the first book return,

Mowgli is innocence and power, a boy's understanding of the world combined with man's power to shape the world. He's ignorant of man's ways, but knows the Law of life a death better than those that live strictly in the village.

Kipling's prose and story telling abilities remain impressive. I'm starting to think anyone not acquainted with him has a gap in their education. He's the type of author that writes on one level, such as here is a story about a crocodile, but there is a deeper level, this is also a story of life, death, memory and each must act their part given by nature.

I liked it a bit better than the first book.

Ruben: certainly now not the e-book that you'd count on after gazing all these Disney films. This sequel of the Jungle booklet is darker and extra mature than the 1st one, it might probably appear just a little simple and flat to our these days criteria however it holds good the prior of time. It includes extra tales approximately Mowgli (of course) yet others hidden gem stones (read The Undertakers and inform me not). The final discussion in itself makes the ebook worthy reading.

Andy: i began this presently after the 1st assortment although acquired sidetracked halfway

(real books held sway over my kindle). regardless of the interruption, i really hottest this volume, essentially for the predominance of reports approximately Mowgli although I additionally favored the darker and older events encountered. The tales are touching and a bit depression as Mowgli faces as much as aging, energy struggles and the alterations therein. The writing is back fantastic, the surroundings bright and alive. good recommended.

Renée Damstra: Heerlijk boek weer. Neemt me helemaal mee. Er zat 1 verhaal tussen wat me wat minder deed, ben alweer vergeten welke, de relaxation used to be supergoed. De gedichtjes sla ik ook over maar dat heeft er ook mee van doen dat mijn niveau van Engels niet zodanig is dat ik die goed kan volgen. Verder: met eenvoudige taal sterk beeldend en wat ik ook heel knap vindt, met karakters, zeker voor wat betreft Mowgli die ondanks de typering wat ongrijpbaar blijven. En ook heel knap vind ik het gevoel van Kipling voor dieren dat hij met een paar woorden typisch een bepaald dier neerzet, het vereist ook een kennersoog voor het gedrag van dieren, dit kan niet iedereen. Het verhaal over de eskimo's en de honden en de jungle verhalen zijn voor mij bijna levende ruimtes geworden in mijn hoofd waar ik naar binnen en naar buiten kan.
