A great mystery paranormal children's novel.

Michael: I read this in middle school as a part of a series of the same characters. I remember really liking them. They were intense and scary for an innocent 10 year old. I am going to read some of this series again to see if they might be something my 10 year old will like.

Anna: A ghostly gothic horror story set in New England. I learn the vast majority of Bellairs' books while i used to be small, yet by some means I ignored this one. and that i want that I had learn this again then, since it seems that this ebook is the prequel to The Revenge of the Wizard's Ghost, which was once my formative years favourite of Bellairs' books. I by no means even knew i used to be lacking out on a part of the story! As a grown-up reader it is simple to be too serious of holes within the tale and issues that are not defined good sufficient - i feel i might have discovered this scary and impossible to resist if I had learn it while i used to be a kid. 3.5 stars.

Arthur: only a hardy and fabulous book, in fact a simple fast learn for it is a YA experience yet much is for wonderful invaluable mature minds.
