Insightful reviews

Notes: Robert Sabuda, ya. Saya termasuk telat tahu tentang Robert Sabuda. Padahal dia maestro gambar sembul. Semua orang yang melihat karya Sabuda pertama kali pasti terpana.

Tulisan di bawah adalah pindahan dari blog saya di Wordpress:

Aku tertegun ketika menelusuri peringkat buku anak di Amazon.co.jp. Baru kali ini kulihat begitu banyak pembaca meluangkan waktu untuk membuat ulasan sebuah buku anak, selain buku-buku Eric Carle. Buku itu adalah Alice's Adventures in Wonderland. Pengarangnya, tentu saja, Lewis Carroll. Namun, yang menuai pujian para pembaca adalah ilustrator sekaligus pembuat gambar-gambar sembulnya: Robert Sabuda.

Sejujurnya, baru sekarang kudengar nama ini.

Terdorong oleh banyaknya jumlah pengulas (133 orang!), aku pun memutuskan untuk membeli Alice's Adventures in Wonderland dan The Wonderful Wizard of Oz. Ada ulasan yang mengatakan, "Buku ini tidak mahal jika dibandingkan dengan kualitasnya." Ada pula yang mengatakan, "Kalau ingin anak Anda menghargai karya seni sejak dini, ini buku yang tepat."

Kedua buku yang kupesan tiba kemarin. Menurutku, ceritanya terlalu panjang untuk dipahami anak kecil seusia Luna (3 tahun), jadi perlu disederhanakan. Tetapi gambar-gambar sembulnya memang memukau. Jumlah halaman bukunya memang sedikit, tetapi di setiap halaman terdapat beberapa halaman buku kecil. Tak salah, Sabuda memang maestro gambar sembul.

Ilustrator sekaliber Robert Sabuda tentu memiliki situs, pikirku, dan ternyata dugaanku tak salah. Bahkan di situs resminya itu Robert Sabuda mempersembahkan satu laman khusus, Simple Pop-Ups You Can Make!. Laman Explore Pop-Ups Book! juga layak diarungi jika ingin mengenal dunia gambar sembul lebih jauh.

Pola gambar sembul di situs Robert Sabuda itu dibagi menjadi tiga kategori: sederhana, sedang, dan rumit. Sangat cocok untuk bahan prakarya bersama anak.

Bikin gambar sembul sendiri, yuk! (df)

Robin: faithful to the original story with many fantastic spreads, especially the spinning tornado, the Emerald City, and the floating balloon.

Ashley : I want to classify this book for different grade levels for different reasons. I would say it

is acceptable for K-2 because of the pop-ups and the vibrant color. If the story was to be read, a teacher or parent might read to the child or read a long with them, a little bit at a time. I would classify this in an older category because of the passages. Older children love pop-up books too! The book was very interactive. Some of the pop-ups you could play with (the green balloon can be spun). The colors are very appealing to the eye. There is a mixture of dull and bright colors, but they are all complimentary to each other. I also enjoyed that there is a pop-up on every page. On some pages, there are additional pop-ups (for example: the page with Emerald City has additional pop-ups in a booklet at the bottom that tells the story. There are also spectacles that you can put on and look at the city with!). If I enjoyed this book, I am sure someone younger than I will enjoy it!

Karolinde (Kari): i assumed I new the tale of ounces till I studied the publication in college. (Thank you Anne and Phil!) not just did I detect how incredibly wealthy the tale actually was, i used to be surprised to determine how a lot of his personal ideals and global Baum placed into this classic. it's certainly worthy interpreting repeatedly again.

Rachel: advanced and wonderful.

Kristen: quite a bit fun.
