## Insightful reviews

Helen: Meh. Lots going on here, but not one of the various tangents was enough to get me really hooked. The writing isn't bad, but not a series I would bother reading more of.

Pauline: Very good read.

Catherine Howard: I really liked Alex Barclay's previous novels, but for some reason this just completely failed to hook me. I had some other books to read at the same time and couldn't resist the temptation to move onto them - I didn't feel like I'd be missing anything by doing it. I just wasn't interested enough in finding out who had done it, and gave up about a 1/3 of the way through. It was well written, but I just didn't care enough about what was really going on.

Lian: fairly could not get in2 this ebook simply all :( did not end it

Rachel: I listened to this as an audio e-book and it was once my first Alex Barclay novel. I gave it 4 stars simply because even if a few of it was once a bit demanding (the bipolar FBI agent cliches) I did locate myself anticipating the subsequent little bit of the book. the stress was once maintained and a few of the discussion used to be entertaining. The aiding characters have been interesting. My largest factor with it used to be that the heroine likes and respects her paintings colleges, yet spend the entire time now not telling them what's going on.I additionally felt the finishing used to be a bit rushed.If you're keen on American crime fiction with sassy characters then i'd recommend.

Lisa Rush: learn this ebook in list timing. The plot got here jointly in a short time most well-liked her different Ren Bryce books nonetheless having fun with her character.
