Description

Ziggy is the adopted teenaged son of two sexually abusive fathers, from whose obsessive attentions he flees into the weird world of his uncle, an amoral man who makes violent pornography. As scenes of fierce sex and sadistic oppression take place around him, Ziggy falls improbably in love -- with his best friend, a junkie. Dennis Cooper, author of the gay horror classic **Frisk**, returns in this novel to his characteristic themes of alienated youth, voyeurism and twisted *Todenlust*, except this time the horrors are as grounded in emotions as they are in the body.

Insightful reviews

Vladimir: the deconstruction of "closer" continues in this "emotional" third installment of the George Miles cycle. Cooper is a genius.

Noriyuko 'Pat': Demented and wonderful...Cooper's ear for - and exaggeration of - vernacular Californian adolescent speech is worth the price of admission alone. Owes as much to William Carlos Williams as it does to De Sade...great stuff, like, totally....

Jon: Definitely one of the most brave authors alive. This stuff is edgy and full of violent gay sex, and also brilliant. Try it, my second fav of Coopers.

Kelly Cowley: This novel, like pretty well all Dennis Cooper's books, is particularly sexually specific and disturbing. Yet I have continually enjoyed his prose and this is often the main reason for rereading his novels for me. Ziggy's worried energy, his pent up frustrations and his clingy devotion to his junkie good friend Calhoun simply yanked at my heart.

M.: the center e-book of the cycle. Cooper is intoxicated, and Ziggy's nonchalance in the direction of the violence of his existence is what retains this novel moving. Most likely the easiest in heading in the direction of an illustration of the absurdity and confusion of love. Simply fuck every thing else.

Michael: don't learn this booklet if you are attempting to fall in love.
