## Description

Druga cz??? wyj?tkowej serii "Pami?tniki Wampirów". Stefano przepad? bez ?ladu. Elena postanawia za wszelk? cen? odnale?? ukochanego. Damon twierdzi, ?e zabi? znieprawidzonego brata, jednak Elena czuje, ?e to nieprawda. Tym bardziej ?e jej przyjaci?ka, która ma dar jasnowidzenia, widzi Stefano uwi?zzonego w jakim? strasznym miejscu...

## Insightful reviews

Siobhan: I hate myself for this, but I watched the television series first. I rarely do this, but in this case I did. In all honestly, I'm glad I did it that way around. Had I read the books first I would not have watched the show. Whilst I have come to dislike the show I at least lasted through a number of series. With the books I hated most of the characters from book one, and only continued on because I'd been brought the first four books (yeah, I do love to subject myself to torture).

If I read this comment from another person I would probably roll my eyes, yet in this situation the television show is so much better.

Seriously, I have never hated a main character so much – and it only gets worse as the series goes on.

I admit that the second book was slightly better than the first, but yet again it was a case of I only read it because I owned more of the series.

Thomas O'Brien: You've done it to me again romance. And I fell right into the trap. You gave me a first book which was by no means spectacular but readable and left me with a cliff-hanger so I had to read the second to see what would happen, and you left me with a bad taste in my mouth.

But as such I found with this one I was only reading it for that reason, to see what happens, I did not particularly enjoy it, the last chapter picked up a lot. But I'm sorry, a good last chapter (and good last chapter only, mind you) does not a good novel make.

But I must remember though I suppose that it's not really aimed at my age group, and if your into the whole teen angst thing you may enjoy this one a lot, because it does that rather well.

But otherwise I would suggest looking elsewhere for a good novel.

But hey, this is just my opinion, take it or leave it as you will.

Déborah Muñoz: [Reseña completa y más en www.escriboleo.blogspot.com](http://www.escriboleo.blogspot.com)

Ha mejorado notablemente respecto [al anterior](#), tanto en los personajes (Elena ya madura un poco, y sus amigas son algo menos idiotas, además aparece Damon para darle un poco de gracia al asunto y Stefan sigue tan maravilloso como siempre). El argumento incluye un poco de misterio y se hace mucho más ágil y atractivo que en el libro anterior, que más parecía la presentación que un libro en sí. No me extraña que las ediciones angloparlantes hayan optado por juntar el 1 y el 2. Está muy bien escrito y me mantuvo enganchadísima (por suerte, ya

---

había adquirido los siguientes libros...).

En esta hay menos romance y más acción, también. Os habéis fijado que ya no pone nada de género romántico o de romántasy. Apenas es significativo.

Shameeka Alexis: i might pretty well given up at the sequence after the 1st book, The Awakening. yet i used to be to provide the sequence one other attempt after listening to considered one of my buddies gush on and on concerning the television series. I re-read The Awakening and endured with The Struggle. The booklet choices up the place the 1st e-book left off. within the moment novella of the 1st volume, what follows is a struggle for Elena's affections and certainly her soul as Stefan's older brother is unmasked because the genuine wrongdoer at the back of the terrible assaults and attempts to win Elena for himself through attraction or through force. because the risk solidifies round her, her existence is extra advanced by means of a rival referred to as Caroline who steals her diary and makes an attempt to take advantage of it to humiliate Elena and force Stefan out of town. As Stefan's and Elena's love grows, Elena realizes that she is dealing with greater than actual or social threat as she begins to be seduced by way of the harmful attract of the evil vampire Damon. Accompanying Elena on her trip is her trio of mortal human buddies Bonnie, Meredith and Matt who're unwitting pawns during this online game that Damon is playing, and who try and defend their good friend with out rather figuring out what's occurring round her. The fight had even more motion and was once far better than the 1st book. Also, the e-book published extra in regards to the characters which was once relieving - considering that I gave the sequence a moment chance.. Summing up, it was once now not undesirable and that i certainly did not have to fight to complete the book.

Michelle: Like many people, I learn this simply because I enjoyed the television show. To anyone else who has this idea, I say this: really, truly, do not waste your time. whether you're keen on the characters. the television exhibit has created wonderful characters and the ebook simply does not have them. This moment booklet used to be larger than the first. needed to be, due to the fact pretty well not anything occurred within the first. Of course, the most personality nonetheless contains a feeling of petulance along with her like a shadow, for no sturdy reason. Damon is un-redeemably evil and unlikable, (view spoiler)[ and so i used to be actually dissatisfied on the finish whilst the writer selected to make Elena a vampire (that used to be fine) after which make her magically fall in love with Damon instead, and in addition develop into extra imprecise and bubbleheaded than she already was. If this writer was once extra talented, she may have slowly introduced the reader (and Elena) round to liking Damon more, after which created a sound love triangle. in its place she was once like, "ooh, it'd be cool if she enjoyed Damon for a while. i'll simply magically make that take place without rationalization and neither character's character gets within the way." this means that Elena's character is essentially erased (not that anybody could omit it). it really is just, after a definite point, should you create a global after which forget about its principles, it ceases to be relevant. I want the manufacturers of the television express might re-write the unique books. (hide spoiler)]["br"]>["br"]>["br"]>["br"]>

Praveen Alluri: This sequence is getting rather intriguing and i'm desirous to see the place it is going to lead. The publication used to be fast-paced and that i quite enjoyed it. cannot wait to learn the following book.
