Weekend

Title: Weekend

Author: Christopher Pike

Format: Paperback

Language: English

Pages: 230

Publisher: , 0

ISBN: 059042968X

Format: PDF / Kindle / ePub

Size: 9.9 MB

Download: allowed

Description

The dream became a nightmare.

The weekend in Mexico sounded like a dream vacation. Four guys, five girls - and a gorgeous oceanside mansion all to themselves. It should have been perfect.

Except nothing was going the way they'd planned. There was the girl upstairs fighting for her life. The phone lines that went dead. And the explosion in the garage that could have killed them all.

But not even that prepared them for what happened next. Because while they were getting some sun, someone else was getting revenge - and the terror wouldn't stop until the weekend was over.

Insightful reviews

Amanda Yeargin: i read Weekend as an IR book. this book was about a group of friends hanging out. also a chance to see robin who is very sick. this was suppose to be the weekend where they were going to have a great time. but things go wrong. people dont show, an explosion, a possible death and more. can they survive?

i have a text-to-movie connection. this was like a movie i saw. they rented a cabin with a bunch of friends but them things so wrong. people started to get sick. then people started dying. basically they were simiilar because both thought that weekend was going to be the best but what they thought wasnt going to happen.

i give this book ****stars. i thought i was a good book. it was a bit boring in the beginning. but once evrything started to happen it got interesting. especially when they all got posioned. i actually thought it was going to be about like ghosts but i guess not. but it was stil good.

zan: I thought about reviewing this book by challenging questionable plot points and analyzing the deeper meaning of the old man's parable in the context of the creation myths of the world, dissecting the family relationships and romances as one would the great tragedies of Shakespeare. Where would you place the character of Bert on a scale of Sancho Panza and Steinbeck's Lenny? Do the rattlesnakes in this novel represent the same thing as Didion's rattlesnakes? Is Sol a Latino Holden Caulfield?

But I'm sure that's all been done before by more serious academics than myself, and so I leave you with this passage, which I feel best sums up the author's existential theme:

"Define 'have gotten together,'" he said.

Lena reached for her Playgirl magazine. "There's a picture in here're that defines it perfectly."

"Come on," Park said, impatient, his ego bruised.

"I'd check out Lena's picture if you really want to--" Shani began.

Poetry!

Lys: Oh, Pike was one of the writers I read the most when I was a kid :)
For the little I remember, Weekend wasn't my fave of his works, but I devoured it nonetheless.

David King: "Weekend" was once one in every of Christopher Pike's first books to be released and there are only a few supernatural facets to it in contrast to a few of his later books. the elemental premise of the booklet is that there has been an "accident" to a gorgeous younger teenager who doesn't truly die, yet is now very ill. Then the very those who have been along with her whilst the coincidence happened get invited to a weekend occasion at a sumptuous mansion at the Mexican coast. when there, quite a few unusual incidents occur, and a pair of humans try and use particularly dodgy capacity to attempt and discover what precisely brought on the accident. need to say that "Weekend" is extra of a secret tale than a piece of horror in my opinion. like every secret novels you do prove spending loads of time brooding about approximately what occurred long ago and what's occurring now within the present. Overall, Christopher Pike does do an outstanding activity of retaining the suspense going correct until eventually the end. However, I did locate the finishing fairly ridiculous as there has been poisonings, explosions and every kind but not anyone stricken reporting something to the police!! I really loved this booklet as a gentle effortless learn that may be ready to cross the time in the course of the bus or teach trip to paintings etc. the entire prolonged evaluate of this ebook are available on my web publication : Books & issues - <http://killie-booktalk.blogspot.com>

Bribooks2: Good, yet i might have cherished a extra suspenseful ending!

Tonia Harris: I tore via his books in my pre-teen and teenage years and felt nostalgic while I ran throughout this title. I remorse nothing. plenty of enjoyable and some snares alongside the way, sufficient to attract you in and maintain you entertained.
