## Insightful reviews

Mikail: the boys are sent back to the stone age

Christina: Once again, the boys are sent back in time; this time, they travel to the Stone Age. They meet up with some cave people and the matriarch looks strikingly like Joe's mother. How did that happen? The boys must battle a dinosaur- what? A dinosaur? That doesn't sound right. Well they have to battle all sorts of things. You are just going to have to read the book to find out what a dinosaur was doing alongside cavemen and how the boys are going to get back to their own time long without The Book since books there are no books in the Stone Age. Or are there?

Another quick and entertaining read in The Time Warp Trio series. Your Mother Was a Neanderthal was not my favorite so far, but it was still mildly entertaining and a good, quick, before bedtime read. Boys will likely enjoy it and if you have a daughter like mine, they will enjoy it as well because gross is funny to kids. While I would not sit down and read this book for myself, it is a good book for read aloud sessions.
